### WHAT IS THIS PRODUCT?

#### Type

Alpine Multiple Opportunities Fund is a Sub-Fund of Alpine Fund SICAV plc (the “Fund”). The Fund consists of separate classes of shares constituting segregated sub-funds which are segregated patrimonies. The Fund is incorporated under the laws of Malta, having its registered office at 475, Triq il-Kbira San Guzepp, Santa Venera SVR 1011, Malta and licensed by the MBR under license number SV 433.

#### Objectives and Investment Policy

The investment objective of this Sub-Fund is to generate regular positive returns on a Euro base through investments in a wide range of transferable securities, interest bearing or dividend driven securities in order to achieve an optimum return from capital invested, while reducing investment risk through diversification.

The Sub-Fund will invest primarily in equity, namely, more than 50% of the total net assets of the Sub-Fund will be invested physically, on an ongoing basis, into the following assets:

- Stocks or other shares of corporations / companies that are admitted for trading on a stock exchange or listed on another regulated market;
- UCITS and UCITS ETFs: (i) classified, at the time of purchase, as equity funds by the German data provider WM-Daten; and/or (ii) that in terms of their respective prospectus and/or offering document, at the time of purchase, are meant to physically replicate/track the performance of equity indices.

The Sub-Fund may also invest in fixed income product: (i) Euro-denominated listed government bonds; and/or (ii) Euro-denominated listed corporate bonds ; and/or (iii) other UCITS and UCITS ETFs that are meant to replicate/track the performance of fixed income indices. The Sub-Fund may also invest in units or shares of other UCITS and UCITS ETFs. Furthermore, the Sub-Fund may invest up to 30% of its NAV in UCITS, UCITS ETFs and/or UCITS compliant transferable securities backed by or linked to the performance of commodities, their indices, or otherwise exposed to the commodities sectors indices.

#### Benchmark and Strategy

The Sub-Fund does not have a reference benchmark and it is actively managed. The Management Company has full discretion over the composition of the Sub-Fund’s portfolio, subject to the investment objective, policy and restrictions stated in the Fund’s Prospectus.

#### Dividend policy

The Sub-Fund will regularly distribute dividends annually on the 15<sup>th</sup> December out of the distributable profits of the Fund attributable to the relevant Class, and subject to recommendation and approval by the Board of Directors.

#### Term of the Product

The product has been established for an indefinite period of time. You can buy, sell and switch shares in the Sub-Fund by providing instructions within 1 business day prior the Redemption Day as outlined in the prospectus of the Sub-Fund. The Directors may in their exclusive discretion limit the total amount of redemptions effected on any Redemption Day to 5% of the outstanding Investor Shares in the Sub-Fund on that day.

#### Practical Information

The Sub-Fund’s depositary bank is Sparkasse Bank Malta plc. The NAV is calculated on a daily basis and is published on the Management Company’s website. This KID is specific to the Class of the Sub-Fund. However, the Prospectus and the annual, and half-yearly, financial reports are prepared for the entire Fund. These documents are available free of charge, in English, on the Management Company website.

#### Intended retail investor

The Sub-Fund aims to meet the needs of all types of investors.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage, and you may get back less.

You may not be able to cash in early. You may have to pay significant extra costs to cash in early. You may not be able to sell your shares in the Sub-Fund easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this Sub-Fund compared to other Funds. It shows how likely it is that the Sub-Fund will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the Sub-Fund's capacity to pay you.

**Be aware of currency risk. You may receive payments in a different currency to the base currency of the Sub-Fund, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Beside the market risks included in the risk indicator, other risks may affect the Sub-Fund, including counterparty risk, credit risk, liquidity risk, operational risk and investment risk.

For further information on risks please see the "Risk Factors" section of the Prospectus of the Sub-Fund.

This Sub-Fund does not include any protection from future market performance so you could lose some or all of your investment.

### Performance Scenarios

Minimum: there is no minimum guaranteed return, and you could lose some or all of your investment.

<b>Recommended holding period:</b>		<b>5 years</b>	
<b>Example Investment:</b>		<b>EUR 10,000</b>	
<b>Scenarios</b>		<b>If you exit after 1 Year</b>	<b>If you exit after 5 years</b>
<b>Minimum</b>	<b>There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	EUR 6,737	EUR 4,342
	<b>Average return each year</b>	-32.63%	-15.37%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	EUR 7,172	EUR 8,157
	<b>Average return each year</b>	-28.28%	-3.99%
<b>Moderate</b>	<b>What you might get back after costs</b>	EUR 9,479	EUR 9,870
	<b>Average return each year</b>	-5.21%	-0.26%
<b>Favourable</b>	<b>What you might get back after costs</b>	EUR 11,186	EUR 11,560
	<b>Average return each year</b>	+11.86%	+2.94%

This table shows the money you might could get back over the next 5 years, under different scenarios, assuming that you invest EUR 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. Whilst the above estimates reflect an analysis of what may happen to portfolio returns under various scenarios, the product may be affected by several other risk factors and your maximum loss would be that you will lose all your investment. Please refer to the prospectus for a more detailed explanation of risks.

## WHAT HAPPENS IF ABALONE ASSET MANAGEMENT LTD IS UNABLE TO PAY OUT?

This Sub-Fund is a sub-fund of Alpine Fund SICAV plc, which is a Company organised under the laws of Malta as a multi fund investment company with variable share capital (SICAV). The Company consists of separate classes of shares constituting segregated sub-funds which are segregated patrimonies. The assets of the product are segregated from the assets of Abalone Asset Management Ltd and they are deposited with the depositary. A default of Abalone Asset Management Ltd does not have any impact on the value of your investments in the Sub-Fund.

## WHAT ARE THE COSTS?

The person advising on or selling you the Sub-Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you invest in the Sub-Fund and how well the Sub-Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Sub-Fund performs as shown in the moderate scenario
- EUR 10,000 per year is invested

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	<b>EUR 732</b>	<b>EUR 1,652</b>
<b>Annual cost impact (*)</b>	<b>7.32%</b>	<b>3.30% each year</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.3% before costs and -0.3% after costs.

We may share part of the costs with the person selling you the Sub-Fund to cover the services they provide to you. They will inform you of the amount.

### Composition of costs

The table below shows the impact on return per year.

<b>One-off costs upon entry or exit</b>		<b>If you exit after 1 year</b>
Entry Costs	Up to 5% impact of the costs you pay when entering your investment.	<b>Up to EUR 500</b>
Exit Costs	Impact of the costs incurred when you exit your investment on maturity.	<b>EUR 0</b>
<b>Ongoing costs taken each year</b>		
Management fees and other administrative or operating costs	2.13% of the value of your investment per year. This is an estimate based on actual costs over the last year and takes account of any known future changes.	<b>EUR 213</b>
Transaction costs	0.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Sub-Fund. The actual amount will vary depending on how much we buy and sell.	<b>EUR 2</b>
<b>Incidental costs taken under specific conditions</b>		
Performance fee	0.17% the actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	<b>EUR 17</b>

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

### Recommended holding period: 5 years

The Recommended Holding Period (RHP) of this product is 5 years which is the period over which an investment into the product is expected to break-even. Please note that this is not guaranteed. The more your actual holding period differs from the product's Recommended Holding Period, the more your actual risk of losing money will deviate from the product assumptions. If you wish, you can redeem before the RHP at the Net Asset Value of the product. Also, you might have needs and constraints implying a completely different holding period suitable to you. Thus, we recommend you discuss this point with your financial advisor. The investor can redeem their shares on every Redemption Day.

## HOW CAN I COMPLAIN?
