PRINCIPAL FEATURES

The following should be read in conjunction with the full text of this Prospectus and is qualified in its entirety by and subject to the detailed information contained elsewhere in the Prospectus.

Company Structure

Alpine Fund SICAV p.l.c. is a collective investment scheme continued as a multi-fund investment company with variable share capital (SICAV) continued with limited liability under the laws of Malta and licensed by the MFSA under the ISA.

The Company qualifies as a 'Maltese UCITS' in terms of the UCITS Regulations. The Company is expected to consist of several Sub-Funds, each of which will be capitalised through the issue of one or more Classes of Investor Shares. The capital raised for each Sub-Fund will be invested in line with its investment objectives, subject to its investment policies and restrictions.

Segregated Assets

The assets and liabilities acquired and assumed for each Sub-Fund through this investment process are, and shall be treated for all intents and purposes of law as, a patrimony separate from the assets and liabilities of each other Sub-Fund. Accordingly, the liabilities incurred in respect of each Sub-Fund shall be paid out of the assets forming part of the patrimony of such Sub-Fund. In the event that the liabilities of a particular Sub-Fund exceed its assets, then the proportion of liabilities in excess of the assets shall not be allocated to the other Sub-Funds. The creditors of that Sub-Fund whose liabilities exceed its assets shall have no claim or right of action against the assets of the other Sub-Funds and of the Company. In terms of Maltese law, the legal status of each Sub-Fund as a patrimony separate from the assets and liabilities of each other Sub-Fund shall be respected in any proceedings which may be instituted in terms of the Companies Act when such proceedings either relate to the dissolution and consequential winding-up of the Company or its reconstruction. Furthermore the proceedings which may be instituted under the Companies Act relating to dissolution and consequential winding-up of companies and company reconstructions shall apply in the same way to each Sub-Fund as though it were a distinct legal entity and with such modifications as are necessary in view of the fact that a Sub-Fund is not a company. Any such proceedings in relation to any one Sub-Fund shall not have any effect on the assets of any other Sub-Fund or of the Company. The Directors shall hold or shall cause to be held such separate accounts, records, statements and other documents as may be necessary to evidence the liabilities and assets of each Sub-Fund as distinct and separate from the assets and liabilities of all the other Sub-Funds.

Where a Sub-Fund is constituted by more than one Class of Investor Shares, the assets and liabilities attributable to a Class of Investor Shares in that Sub-Fund do not constitute a separate patrimony from the assets and liabilities attributable to the other Classes of Investor Shares in the same Sub-Fund.

ADMINISTRATOR

The Investment Manager has delegated fund administration services to and appointed BOV Fund Services Limited as the Administrator of the Company and its Sub-Funds by means of an Administration Agreement dated 15 December 2016. The Administrator was incorporated in Malta on the 27th September 2006, with the object of providing services as an administrator to investment companies and other collective investment schemes. The Administrator is recognised by the MFSA in terms of the ISA as a fund administrator.

Under the Administration Agreement, the Investment Manager engaged the Administrator to perform certain financial, accounting, corporate, administrative, registrar and transfer agency and other services for the Company and the Sub-Funds on behalf of the Investment Manager. By means of the same Administration Agreement the Company agreed to remunerate the Administrator directly for its services and also appointed the Administrator as its company secretary and as registered office provider.

Pursuant to the Administration Agreement, the Administrator is responsible, under the supervision of the Investment Manager, for the administration of the Company and its Sub-Funds. In performing its duties in terms of the Administration Agreement, the Administrator shall be responsible for certain day-to-day tasks, including: (a) communicating with the Company's Shareholders, (b) communicating with others in relation to the Company, (c) processing subscriptions of new Shareholders, (d) maintaining the Company's principal corporate records and books of accounting, (e) arranging for and coordinating the audit of the Company's financial statements by independent auditors, (f) disbursing distributions with respect to the Shares, legal fees, accounting fees, and officers' and Directors' fees on behalf of the Company, (g) calculating the Net Asset Value of the Shares and furnishing each Shareholder with reports on the investment performance of the Company, (h) as Company Secretary conducting meetings of the Company's Shareholders and Directors and (i) processing redemptions of the Shares.

For the purpose of calculating the Net Asset Value, the Administrator will rely on, and shall not be responsible for the accuracy of, financial data furnished to it by the Investment Manager, any sub-advisors, any broker and/or independent third party pricing services. The Administrator will not be responsible or liable for the accuracy of information furnished by other persons in performing its services for the Company. The Administrator in no way acts as guarantor or offeror of the Shares or any

underlying investment, nor is it responsible for the actions of the Company's sales agents, any broker or the Investment Manager. Moreover, the Administrator is not responsible for any trading decisions of the Company (all of which will be made by the Investment Manager) or the effect of such trading decisions on the performance of the Company.

The Administration Agreement may be terminated by the Investment Manager or the Administrator by not less than ninety (90) days' prior written notice. The Administration Agreement may also be terminated immediately by the Company, the Investment Manager or the Administrator in certain extraordinary circumstances mentioned in the Administration Agreement. As the Administrator is acting as a delegate of the Investment Manager, if the Investment Management Agreement is terminated then the Administration Agreement will also terminate. On termination the Company shall pay all fees, expenses or other costs reasonably incurred to the date of termination under the Administration Agreement. The Administrator, with the prior approval of the Investment Manager and the Company, such approval not to be unreasonably withheld, may choose to out-source some of the services it provides to the Company.

Under the Administration Agreement the Company indemnifies the Administrator and holds it harmless from and against all liabilities, damages, loss, claims and expenses (including without limitation legal fees on a full indemnity basis and amounts reasonably paid in settlement) arising out of any claims asserted or threatened against the Administrator, its directors, officers, employees, servants or agents in the performance of any of its obligations or duties hereunder (including without limitation complying with instructions given to the Administrator by or on behalf of the Investment Manager); provided, however that the Administrator shall not be entitled to such indemnification with respect to any liabilities, damages, costs, claims and expenses which were caused by the Administrator's own gross negligence, fraud, wilful misconduct or, reckless or wilful disregard of its duties under the Administration Agreement. Any indemnity expressly given to the Administrator in this Agreement shall be in addition to, and without prejudice to, any indemnity allowed at law.

The Administration Agreement is regulated by the laws of Malta and subject to the jurisdiction of the Maltese courts.

The fees payable to the Administrator are set out in the Section entitled "Fees, Charges and Expenses" below and in the Administration Agreement.

CONFLICTS OF INTEREST

As mentioned in the Section entitled "Risk Factors" below, potential investors should be aware that there may be situations in which each and any of the Directors, the Investment Manager, the Depositary, the Administrator and their respective delegates including investment advisors, sub-investment managers and sub-custodians, where applicable (together the "Interested Parties"), could encounter a conflict of interest in connection with the Company. Should a conflict of interest actually arise, the Interested Parties will endeavour to ensure that it is resolved fairly. In particular, potential investors should be aware of the following:

Certain Directors of the Company or entities in which they may have a financial or managerial interest, may sell Investor Shares of the Company and receive a portion of each, or all, of the brokerage commissions, transaction charges, advisory fees or management fees paid by the Company as attributable to such Investor Shares. Thus, to the extent of such purchases, such Directors may have a conflict of interest between their duty to act for the benefit of the Shareholders in limiting expenses of the Company and the Sub-Fund and their interest in receiving such fees and/or commissions.

The Investment Manager may make investments for other clients without making the same available to the Company and its Sub-Funds where, having regard to its obligations under the management agreement, the Investment Manager considers that it is acting in the best interests of the Company, so far as reasonably practicable having regard to its obligations to other clients.

The Investment Manager, the Investment Advisor, the Depositary and the Administrator may carry out such functions for other investment companies engaging in the same activities as the Company.

The Company may effect the sale or purchase of investments through a broker who is associated with the Investment Manager, the Investment Advisor or the Depositary, provided that the amount of commission payable to such broker is not in excess of that which would have been payable had the sale or purchase been effected through a broker who is not so associated.

The Company may, to the extent permissible under the MFSA Rules, enter into derivative contracts or other transactions of a similar nature with companies or other entities forming part of the same group of companies as the Investment Manager, the Investment Advisor and the Administrator or which are associated, directly or indirectly with the Investment Manager, the Investment Advisor, the Administrator or with which any of the directors of the Company may be connected or employed. The Company may enter into such dealings provided that they are on an arm's length basis and on terms no less favourable to the Company than could reasonably have been obtained had the dealing been effected with an independent third party. Should a conflict of interest arise, the Directors, the Investment Manager, the Investment Advisor and the Administrator will endeavour to ensure that it is resolved fairly and that the Company is not disadvantaged.

RISK FACTORS

The risk factors below are of a general nature and are intended to describe various risk factors which may be associated with an investment in a Sub-Fund to which the attention of investors is drawn. See also the section of the relevant Offering Supplement entitled "Risk Factors" for any additional risks particular to the Investor Shares in that Sub-Fund. However, these are not intended to be exhaustive and there may be other considerations that should be taken into account in relation to an investment. Investors should consult their own advisors before considering an investment in the Investor Shares in a particular Sub-Fund. The factors of relevance to the Investor Shares in a particular Sub-Fund will

depend upon a number of interrelated matters including, but not limited to, the nature of the Investor Shares.

General

The assets and liabilities of the Company and its Sub-Funds are as a general rule subject to normal market fluctuations and other risks inherent in owning such assets and assuming such liabilities. The value of investments and the income therefrom, and therefore the value of and income from Investor Shares relating to each Sub-Fund can go down as well as up and an investor may not get back the amount he invests. Due to the charges which may be payable on the acquisition or disposal or redemption or exchange of shares, an investment in Investor Shares in a particular Sub-Fund should be viewed as medium to long term. An investment in a Sub-Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. Risk factors may occur simultaneously and/or may compound each other resulting in an unpredictable effect on the value of the Investor Shares. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Investor Shares.

Management Risk

Any Sub-Fund is open to the risk of unprofitable outcomes that is losses incurred or profits foregone as a result of what turn out to be poor decisions or to take or not to take certain actions at the right time. At any time certain policies, strategies, investment techniques and risk analysis may be employed for a Sub-Fund in order to seek to achieve its investment objective; however, there can never be any guarantee that the desired results will be obtained.

Insufficient Risk Recognition

An investment in the Investor Shares in a particular Sub-Fund involves risks. These risks may include or relate to, among others, equity market, bond market, foreign exchange, interest rate, credit, market volatility and political risks and any combination of these and other risks. Some of these risk factors are briefly discussed below.

Investors should understand the risks associated with an investment in the Investor Shares in a particular Sub-Fund and should only reach an investment decision after careful consideration with their legal, tax, accounting, financial and other advisors of (i) the suitability of an investment in the Shares in the light of their own particular financial, fiscal and other circumstances, (ii) the information set out in this Prospectus, (iii) the risks associated with the use by the Sub-Fund of derivative techniques (if applicable), (iv) the nature of the Sub-Fund's assets, and (v) information set out in the relevant Offering Supplement.

Investors in the Investor Shares in a particular Sub-Fund should recognise that the Investor Shares may decline in value and should be prepared to sustain a substantial loss of their investment in the Investor Shares.

Risk factors may occur simultaneously and/or may compound each other resulting in an unpredictable effect on the value of the Investor Shares. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Investor Shares.

Segregation of Liability

The provisions of the Companies Act provide for segregated liability between Sub-Funds and as such, under Maltese law, the assets of one Sub-Fund will not be available to satisfy the liabilities of another Sub-Fund. However, it should be noted that the Company is a single legal entity which may operate or have assets held on its behalf or be subject to claims in other jurisdictions which may not necessarily recognise such segregation. It is the Company's policy to obtain from any person or entity dealing with

the Company, an express acknowledgement that he/it will have no recourse or right against the Company and any Sub-Funds except to the extent of the assets of any particular Sub-Fund and, in that case, only in respect of his/its dealings with that particular Sub-Fund. Nonetheless, there can be no guarantee that the courts of any jurisdiction outside Malta will respect the limitations on liability as set out above.

Suspension Risk

Investors are reminded that in certain circumstances their right to have their Investor Shares redeemed may be suspended.

Counterparty Risk

Currency forward contracts, swaps and other forms of FDIs are not guaranteed by an exchange or its clearing house. Consequently, there are no requirements with respect to record keeping, financial responsibility or segregation of customer funds and positions. The business failure of a counterparty with which the Company has entered into "a trade" will most likely result in a default. The default of a party with which the Company has entered into "a trade" will force the Company to cover its resale or repurchase commitments, if any, at the then current market price. The Company is also exposed to the risk of failure by a counterparty to perform its obligations under an OTC FDI contract. Transactions in over-the-counter markets are not subject to the same regulatory oversight as exchange-based markets.

Credit Risk

Investors in the Investor Shares in a particular Sub-Fund should be aware that such an investment might involve credit risk. Bonds or other debt securities held for a Sub-Fund involve credit risk represented by the possibility of default by the issuer. This risk may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated and/or unsubordinated securities. In the event that any issuer of bonds or other debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities (which may be zero) and any amounts paid on such securities (which may be zero). This may in turn affect the NAV per Share. Stock lending of securities held for a Sub-Fund also involves credit risk, being the risk that the securities lent are not recovered and/or that recovery is delayed.

Credit Ratings

The management of any Sub-Fund may involve substantial reliance on credit ratings. Credit ratings are assigned by rating agencies such as Standard & Poor's or Moody's. It is important to understand the nature of credit ratings in order to understand the nature of securities. The level of a credit rating is an indication of the probability that (in the opinion of the rating agency) payments will be made on the relevant bond(s) or other obligation(s) to which the credit rating relates. Bonds with a rating of AAA, AA, A or BBB by S&P are generally called "investment grade" bonds, with AAA representing the credit rating of the highest quality. While credit ratings can be a useful tool for financial analysis, they are not a guarantee of quality or a guarantee of future performance in relation to the relevant obligations. Ratings assigned to securities by rating agencies may not fully reflect the true risks of an investment. Ratings may also be withdrawn or revised at any time.

Exchange Rates

Investors in the Investor Shares in a particular Sub-Fund should be aware that their investment might involve exchange rate risks. For example, the Investor Shares may be denominated in a currency other than the investor's reference currency, which could be the currency of the investor's home jurisdiction and/or the currency in which an investor wishes to receive his monies or in which he prefers to maintain his capital or otherwise that currency to which the investor prefers or requires to be exposed

to primarily.

Exchange rate risks may also arise indirectly when the base currency of the investor is the same as that of the Investor Shares, especially if the underlying assets attributed to the Sub-Fund are denominated in other currencies. The Company may attempt to reduce this risk through hedging arrangements details of which would (if employed) be stated in the relevant Offering Supplement.

Exchange rates between currencies are determined by factors of supply and demand in the international currency markets, which are influenced by macro-economic factors (such as the economic development in the different currency areas, interest rates and international capital movements), speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Investor Shares.

Hedging Transactions

The Company in respect of the Sub-Funds may employ various techniques in respect of the Sub-Funds to attempt to reduce a portion of the risks inherent in their respective investment strategies. The ability to achieve the desired effect through a particular technique is dependent upon many factors, including the liquidity of the market at the desired time of execution. Thus substantial risk remains so that such techniques cannot always be implemented or effective in reducing losses. Hedging transactions, including the use of FDIs, which may be used by the Company have risks associated with them, including possible default by the other party to the transaction, illiquidity, a lack of regulation in certain over-the-counter markets and, to the extent that the view of the management of the Company as to certain market movements is incorrect, the risk that the use of hedging transactions could result in losses greater than if they had not been used. Use of put and call options may result in losses. The use of currency transactions can result in losses being incurred as a result of a number of factors including the imposition of exchange controls, suspension of settlements, or the inability to deliver or receive specified currency.

The use of options and futures transactions entails certain other risks. In particular the variable degree of correlation between price movements of futures contracts and price movements in the related portfolio position of the Company creates the possibility that losses on the hedging instrument may be greater than gains in the value of that position. In addition, futures and options markets may not be liquid in all circumstances. As a result, in certain markets, the Company might not be able to close out a transaction without incurring substantial losses, if at all. Although the use of futures contracts and options transactions for hedging should tend to minimise the risk of loss due to a decline in the value of the hedged position, at the same time they tend to limit any potential gain which might result from an increase in value of such position. Finally, the daily variation margin requirements for futures contracts could create a greater ongoing potential financial risk than could purchases of options, where the exposure is limited to the cost of the initial premium. Losses resulting from the use of hedging transactions could reduce NAV, and possibly income and such losses can be greater than if the hedging transactions had not been utilised.

Interest Rates

Investors in the Investor Shares in a particular Sub-Fund should be aware that an investment in the Investor Shares might involve interest rate risk in that there may be fluctuations in the currency of denomination of the Sub-Fund's assets and/or the Investor Shares in that Sub-Fund.

Interest rates are determined by factors of supply and demand in the international money markets, which are influenced by macro-economic factors, speculation and central bank and government intervention. Fluctuations in short term and/or long-term interest rates may affect the value of the

Investor Shares in a particular Sub-Fund. Fluctuations in interest rates of the currency in which the Investor Shares in a particular Sub-Fund are denominated and/or fluctuations in interest rates of the currency or currencies in which the Sub-Fund's assets are denominated may affect the value of the Investor Shares in that Sub-Fund.

Loss or Insolvency at Clearing Firm or Sub-Custodian

If a clearing firm utilised by or on behalf of the Company (including by or on behalf of a sub-investment manager) were to become insolvent, the Company could have some or all of the positions on accounts maintained with that firm closed out without its consent.

Even if all such positions are not closed out under these circumstances, delays or other difficulties may be experienced in attempting to close out or exercise options positions. Widespread insolvency among clearing firms that clear securities options could also impair the ability of the entity, where applicable, responsible for overseeing and/or ensuring settlement of trades in such securities options to honour all exercised options, in spite of the system of safeguards which it may have in place. Such widespread insolvency could result in substantial losses to the Company and its Sub-Funds.

The Depositary's liability for loss or prejudice arising from the insolvency, acts or omissions of sub-custodians and other delegates, and of clearing systems, settlement systems, dematerialised book entry systems, central securities depositories or similar systems used by the Depositary, is limited in terms of the relevant Depositary Agreement; accordingly, in the event of any loss or prejudice arising from the insolvency, acts and omissions of such persons, the Company may have to enforce its rights against such persons directly. Furthermore, any delegation made by the Depositary pursuant to any Depositary Agreement poses credit or counterparty risk and operational and legal risk and may be susceptible to systemic risk; if any such risk materializes, assets of the Sub-Fund may be lost or become unavailable (for instance, if the Sub-Fund's assets are not segregated on the Sub-Custodian's books, the Sub-Fund's assets cannot be identified and reattributed to the Sub-Fund, or if the Sub-Custodian becomes insolvent, the Company or its investors may not be able to claim back their assets immediately).

Market Volatility

Market volatility reflects the degree of instability and expected instability of the performance of the Investor Shares and the Sub-Fund's assets. The level of market volatility is not purely a measurement of the actual volatility, but is largely determined by the prices for instruments, which offer investors protection against such market volatility. The prices of these instruments are determined by forces of supply and demand in the options and derivatives markets generally. These forces are, themselves, affected by factors such as actual market volatility, expected volatility, macro-economic factors and speculation.

Liquidity Risk

Certain types of assets or securities may be difficult to buy or sell, particularly during adverse market conditions. This may affect the ability to obtain prices for the assets held by a Sub-Fund and may therefore prevent the calculation of the NAV per Share and/ or the raising of cash to meet redemptions of Investor Shares in the Sub-Fund concerned.

Sustainability Risks

The distinct Sub-Funds of the Company are in terms of the SFDR categorised as 'financial products' subject to certain requirements relating to sustainability-related disclosures in the financial services sector. The Investment Manager (appointed by the Company in respect of its distinct Sub-Funds) as a 'financial market participant' is required to inter alia perform a sustainability risk assessment to determine the relevance of sustainability risks in respect of its Sub-Funds, and secondly disclose the

manner (if determined to be relevant) in which such risks are integrated into the investment decisions and the results of the assessment of the likely impacts of sustainability risks on the returns of the Sub-Funds.

Sustainability risk is an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investments made by the Sub-Funds. These risks are primarily linked to a number of events relating to climate change, changing customer behaviour, bribery issues, human rights issues, inequality etc which may result in unanticipated losses that could affect the return of Sub-Funds and also their investment value.

The impacts following the occurrence of a sustainability risk event or condition may vary depending on the specific risk, region and asset class. In general, where a sustainability risk occurs there will be a negative impact on, or entire loss of the Sub-Fund's value. Such assessment of the likely impact must therefore be conducted at each Sub-Fund level by the Investment Manager. Further details and specific information are given for each Sub-Fund in the respective Offering Supplement.

Tax and Legal Risks

The tax consequences to the Sub-Fund and investors in the Sub-Fund, the ability of the Sub-Fund as a foreign investor to invest in the markets and to repatriate its assets including any income and profit earned on those assets and other operations of the Sub-Fund are based on existing regulations and are subject to change through legislative, judicial or administrative action in the various jurisdictions in which the Company operates. There can be no guarantee that income tax legislation and laws or regulations governing the Company's operations and investments will not be changed in a manner that may adversely affect the Company or its Sub-Funds.

Use of FDIs

While the prudent use of FDIs can be beneficial, FDIs also involve risks of different from, and in certain cases, greater than, the risk presented by more traditional investments.

OTC FDIs, in particular, are typically structured derivative transactions. Structured derivative transactions are complex and may involve a high degree of loss.

The Company and its Sub-Funds will only use FDIs (including OTC FDIs) for the purpose of efficient portfolio management, and as such, the use of FDIs is not speculative.

Specific Restrictions in Connection with the Investor Shares

Investors should note that there may be restrictions in connection with the subscription, holding and repurchase of and trading in the Investor Shares in a particular Sub-Fund. Such restrictions may have the effect of preventing the investor from freely subscribing, holding, trading and/or repurchasing the share. In addition to the features described below, such restrictions may also be caused by specific requirements such as the minimum amount that may be held or invested in any particular Class of Shares.

Maximum Repurchase Amount

The Company will have the option to limit the number of Investor Shares in any Sub-Fund repurchased on any Dealing Day (other than at the specified maturity date, where applicable) to a stated percentage of the total NAV of that Sub-Fund on that Dealing Day and, in conjunction with such limitation, to pro rata limit the number of Investor Shares repurchased by any Shareholder on such Dealing Day so that all Shareholders wishing to have Investor Shares in that Sub-Fund repurchased on that Dealing Day realise the same proportion of such Investor Shares. In the event the Company elects to limit the number of Investor Shares repurchased on such date, a Shareholder may not be able to repurchase

on such Dealing Day all the Investor Shares that it desires to repurchase. Investors should review this Prospectus and the relevant Offering Supplement to ascertain when and how such provisions may apply.

Limited Transferability

Since the Directors may decline to register a transfer of Investor Shares at their sole and absolute discretion, Shareholders may not be able to dispose of their investments privately and therefore would have to utilise the Company's redemption or repurchase programme, which itself may be subject to restrictions, albeit to be exercised in exceptional circumstances, where the circumstances so require, and when suspension is justified having regard to the interest of the Shareholders. Furthermore, the Company may be required by the MFSA to suspend redemptions where it is considered to be in the interest of Shareholders – see the part entitled "Redemption/Repurchase of Shares by the Company" below.

Illiquidity of Investor Shares

There will be no secondary market for the Investor Shares, and consequently, Shareholders can normally dispose of the Investor Shares only by means of redemption on any Redemption Day as described herein. There is no assurance that the Company will be able to liquidate the portfolio securities attributable to the Investor Shares being redeemed without losses. These losses might have an adverse effect on the NAV of that Sub-Fund and thus on the redemption proceeds that will be received by the outgoing investor. In the event of unsettled market conditions, or if for any reason the Company is unable to liquidate its investments or if it is obliged to suspend dealings in its Investor Shares, the Company may be unable to redeem such Investor Shares.

Substantial Redemptions

Substantial redemption / repurchase of investor Shares in a particular Sub-Fund could require the Company to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the Investor Shares in that Sub-Fund. In these circumstances, the Company may defer redemptions / repurchases. Substantial redemptions / repurchases might cause the liquidation of the Company.

Illiquidity in certain markets could also make it difficult for any Sub-Fund of the Company to liquidate positions on favourable terms, thereby resulting in a decrease in the value of the assets. In these circumstances, the non-redeeming Shareholders will bear a disproportionate risk of any decline in the value of a Sub-Fund's assets subsequent to the redemptions.

Temporary Suspension in Redemptions and Suspension in the determination of the NAV

The Company reserves the right to suspend the determination of the Net Asset Value of a Sub-Fund and the right of any Shareholder to require redemption of any Investor Share and the issue of Investor Shares. In such cases a Shareholder may be unable to redeem his Investor Shares in a Sub-Fund within the normal timeframes described in this Prospectus.

Compulsory Redemptions

The Company reserves the right to require a Shareholder to redeem its total shareholding, within 1 Business Day of a notice of intent to do so, in the event that the holding of Investor Shares by the Shareholder concerned may result in regulatory, pecuniary, legal, taxation or material administrative disadvantage for the Company or the Shareholders as a whole, or, if on any Valuation Day, the total value of the Investor Shares held by the Shareholder is less than the Minimum Holding for the Company or a Sub-Fund. Such compulsory redemptions, which will take place at the prevailing Redemption Price, may crystallise losses and/or deprive an investor of the opportunity to recover

losses or otherwise gain from investing in the Sub-Fund concerned.

Market Disruption Events & Settlement Disruption Events

A determination of a market disruption event or a settlement disruption event in connection with any Sub-Fund's assets (as may be further described in any Offering Supplement) may have an effect on the value of the Investor Shares in that Sub-Fund and may delay settlement in respect of the Sub-Fund's assets.

Confidential Information

The Investment Manager may, in connection with its other business activities, acquire material non-public confidential information that may restrict it from purchasing assets or selling assets for itself or its clients (including the Company) or otherwise using such information for the benefit of its clients or itself.

Conflicts of Interest

Conflicts of interest may arise between the Company and certain Relevant Parties (being the persons or entities involved in the management of the Company or offering services to it and/or the Investment Manager, the Investment Advisor, the Administrator, the Depositary or other service providers or counterparties to the Company including any prime brokers, sub-custodians and futures clearers which may be appointed in respect of the Sub-Funds). The Relevant Parties which may be appointed in respect of the Sub-Funds (including their respective principals, shareholders, members, directors, officers, agents or employees) may from time to time act as investment manager, Depositary, registrar, broker, administrator, investment advisor, prime broker or futures clearer, distributor or dealer in relation to, or otherwise be involved in, other funds established by parties other than the Company and/or the Sub-Funds, as the case may be, which have similar objectives and which make investments similar to those made on behalf of a Sub-Fund of the Company. Such clients could thus compete for the same trades or investments, and whilst available investments or opportunities for each client are generally expected to be allocated in a manner believed to be equitable to each, certain of the allocation procedures may adversely affect the price paid or received for investments or the size of positions obtained or disposed.

There may also be a conflict of interest as the Investment Manager will be involved in the calculation of the Net Asset Value of Sub-Fund, and the Investment Management Fee is based upon the Net Asset Value. However prospective Shareholders should note that the Administrator will ultimately be responsible for the Net Asset Value calculations, and also that Investment Management Fee and Performance Fee payments will be contained in the accounts of the Company, which will be audited on an annual basis by an independent auditor.

Conflicts may also arise as a result of the other services provided by affiliates of the Investment Manager which may provide advisory, depositary or other services to the Investment Manager. Similarly the Directors may also be directors of other companies in which the Company may invest, which could result in conflicts of interest. Generally, there may be conflicts of interest between the interests of the Company and the interests of the Investment Manager and its affiliates and the Directors to generate fees, commissions and other revenues. In the event that such a conflict of interest arises, the Directors will endeavour to ensure that it is resolved in the best interest of the Company. It should be noted that the Investment Manager of any of the Sub-Funds, as well as its affiliates, may at any time also be offering their services to one or more of the investors in the Sub-Funds.

Furthermore, the Directors or the Investment Manager may have equity stakes in the funds to which they are providing their services, or own or have an interest.

Taxation

Investors in the Investor Shares in a particular Sub-Fund should be aware that they may be required to pay income tax, withholding tax, capital gains tax, wealth tax, stamp taxes or any other kind of tax on distributions or deemed distributions of the Sub-Funds, capital gains within the Sub-Funds, whether or not realised, income received or accrued or deemed received within the Sub-Fund etc., and this will be according to the laws and practices of the country where the Investor Shares are purchased, sold, held or redeemed and in the country of residence or nationality of the Shareholder.

Investors should be aware of the fact that they might have to pay taxes on income or deemed income received by or accrued within a Sub-Fund. Taxes might be calculated based on income received and/or deemed to be received and/or accrued in the Sub-Fund in relation to the Sub-Fund asset, whereas the performance of the Sub-Fund, and subsequently the return investors receive after redemption of the Shares, might partially or fully depend on the performance of the Underlying. This can have the effect that the investor has to pay taxes for income or/and a performance which he does not, or does not fully, receive.

Investors who are in any doubt as to their tax position should consult their own independent tax advisors. In addition, investors should be aware that tax regulations and their application or interpretation by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment, which will apply at any given time.

Change of Law

The Company must comply with regulatory constraints, such as a change in the laws affecting the Investment Restrictions, which might require a change in the investment policy and objectives followed by a Sub-Fund.

Political and/or Regulatory Risk

The performance of the Investor Shares in a particular Sub-Fund or the possibility to purchase, sell, or repurchase may be affected by changes in general economic conditions and uncertainties such as political developments, changes in government policies, laws or regulations (including regarding taxation), the imposition of restrictions on the transfer of capital and changes in regulatory requirements in the Company's home jurisdiction or in countries where a Sub-Fund is invested. The legal infrastructure, accounting, auditing and reporting standards in certain jurisdictions in which the capital of a Sub-Fund may be invested may not offer the same degree of investor protection or information as is normally expected in major securities markets.

Liability for Fees and Expenses

The fees and expenses relating to a Sub-Fund will be paid by the Company out of the assets of the relevant Sub-Fund as set out in the Section entitled "Fees, Charges and Expenses" and the relevant Offering Supplement. However, to the extent that:

- the arrangements for funding the payment by the Company of the fees and expenses do not generate the necessary funds to discharge all of the Company's liabilities in respect of the Sub-Fund; or
- the Company incurs any fees, expenses or other liabilities which are not budgeted for by the Company and accordingly fall outside the scope of the arrangements referred to in (a) above,
- the Company will pay such fees, expenses or liabilities from the Sub-Funds' assets. The Company's liability in respect of such amounts will be borne by the relevant Sub-Fund as more fully described under "Cross Liability between Classes" below.

Fee Structure

The Company will bear the fee paid to the Investment Manager, the Investment Advisor, the Depository, the Administrator and other service providers. Further, certain of the strategies employed in the Sub-Funds, or in investments made by the Sub-Funds, may require frequent changes in trading positions and consequent portfolio turnover. As a result, an above average portion of a Sub-Fund's capital may be expended in transaction costs.

Borrowing Risks

The Company in respect of a Sub-Fund may not be able to repay borrowings or may be forced to sell investments at a disadvantageous time in order to repay borrowings. The Company in respect of a Sub-Fund might elect to sell its more liquid assets to repay borrowings, or to meet redemptions, thus increasing its concentration in less liquid securities.

Indemnities

The Directors and officers, the Investment Manager, the Investment Advisor, the Depository and the Administrator and each of their directors, officers, employees and agents are entitled to be indemnified in certain circumstances. As a result, there is a risk that the Company's assets will be used to indemnify such persons, companies or their employees or satisfy their liabilities as a result of their activities in relation to the Company.

Cross Liability between Classes - Allocation of shortfalls among Classes of Investor Shares in a Sub-Fund

The right of holders of any Class of Investor Shares to participate in the assets of the Company is limited to the assets (if any) of the relevant Sub-Fund to which his Investor Shares relate and all the assets comprising a Sub-Fund will be available to meet all of the liabilities of that Sub-Fund, regardless of the different amounts stated to be payable on the separate Classes of Investor Shares constituting that Sub-Fund.

Consequences of winding-up proceedings

If the Company fails for any reason to meet its obligations or liabilities, or is unable to pay its debts, a creditor may be entitled to make an application for the winding-up of the Company. The commencement of such proceedings may entitle creditors (including a counterparties) to terminate contracts with the Company (including Sub-Fund assets) and claim damages for any loss arising from such early termination. Notwithstanding that Maltese law caters for the insolvency of a sub-fund distinctly from that of an investment company with segregated cells, so that the insolvency of any Sub-Fund does not affect the Company or its unaffected sub-funds, the commencement of such proceedings may result in the Company being dissolved and its assets (including the assets of all Sub-Funds) being realised and applied to pay the fees and expenses of the appointed liquidator or other insolvency officer, then in satisfaction of debts preferred by law and then in payment of the Company's liabilities, before any surplus is distributed to the shareholders of the Company. In the event of proceedings being commenced, the Company may not be able to pay, in full or at all, any amounts due in terms of this Prospectus to the Shareholders, including the redemption amounts for repurchased shares in respect of any Sub-Funds.

Nominee Arrangements

Where Investor Shares in a Sub-Fund are held by a nominee service provider on behalf of an investor, or and investor holds interests in the Investor Shares of any Sub-Fund through accounts with a clearing system, such investor will only receive payments in respect of (say) redemption proceeds and/or any dividends attributable to the Investor Shares on the basis of the arrangements entered into by the investor with the nominee service provider or Clearing System, as the case may be.

Furthermore, any such investor will not appear on the share register of the Company (the “Register”), will have no direct right of recourse against the Company and must look exclusively to the nominee service provider or clearing system for all payments attributable to the relevant Shares. The Company and the Directors will recognise as Shareholders only those persons who are at any time shown on the Register for the purposes of (i) the payment of dividends and other payments due to be made to Shareholders (as applicable); (ii) the circulation of documents to Shareholders; (iii) the attendance and voting by Shareholders at any meetings of Shareholders; and (iv) all other rights of Shareholders attributable to the Shares. None of the Company, the Directors, the Investment Manager, the Administrator, the Depository or any other person will be responsible for the acts or omissions of any nominee service provider or clearing system, nor make any representation or warranty, express or implied, as to the services provided by any nominee service provider or clearing system. The Administrator is not authorised to have nominee arrangements which require a licence under the Act.

Performance Fees

To the extent that the Investment Manager will be entitled to receive performance fees from the Company, such fees may create an incentive for the Investment Manager to engage in investment strategies and make investments that are more speculative than would be the case in the absence of such fees.

Furthermore, the increase in NAV which is used as a basis for the calculation of performance fees, may be comprised both of realised gains as well as unrealised gains as at the end of the calculation period, and as a result, performance fees may be paid on unrealised gains which may subsequently never be realised by the Sub-Funds.

Unless otherwise stated in a particular Offering Supplement for a Sub-Fund, the Company has not adopted an equalisation methodology for the calculation of the performance fee which may result in certain inequalities caused by Shareholders subscribing for Investor Shares during the course of the relevant period for which a performance fee is calculated (the “Performance Period”). If a Shareholder subscribes for Investor Shares during a Performance Period where a performance fee has been accrued and the Sub-Fund subsequently loses value during the remainder of the Performance Period and the accrual is reversed, this will benefit all Shareholders in the relevant Sub-Fund. This is inequitable because all Shareholders will benefit whilst only the original Shareholders will suffer the cost of the original performance fee accrual. Similarly, if the Sub-Fund loses value after the end of a Performance Period and then the Offering Price at which the Investor Shares are issued is below the high watermark, those new Shareholders will not pay any performance fee on their Investor Shares until the value of their Investor Shares has reached the high watermark. Accordingly, those Shareholders get a “free ride” and do not have to pay any performance fee on the performance from the Offering Price to the high watermark.

Receipt of subscription proceeds

The Company may issue Investor Shares prior to receiving subscription monies, given settlement can be up to two days after the respective Valuation Day, or as may be further described in the relevant Offering Supplement. There is a risk of dilution if such funds are not received by the deadline.

The actual value of the paid up share capital of any Sub-Fund shall be at all times equal to the value of the assets of any kind of the particular Sub-Fund after the deduction of such Sub-Fund's liabilities. Shares will be issued as fully paid. No Shares have preferences, pre-emptive, conversion or exchange rights. Other than as stated herein, there are no outstanding options or any special rights relating to Shares.

Founder Shares

The Company issued 1,000 Founder Shares with no nominal value, which Founder Shares constitute a separate Class of Shares of the Company but do not constitute a Sub-Fund. The Founder Shares are held in majority by Alpine Trust Management GmbH with 999 shares, and Dr. Oliver Stolte with 1 share. The Founder Shares are ordinary shares with voting rights and participate in the net assets of the Company on dissolution and liquidation after all the Investor Shares in the Company have been repurchased. Subject to the Founder Shareholders' exclusive right to appoint one Director, the Directors are to be appointed by the holders of the Founder Shares and the voting Investor Shares.

Investor Shares

The Company has designated the maximum number of Investor Shares on offer in each Class as stated in the relative Offering Supplements.

The Directors may from time to time split Investor Shares into a greater number of Investor Shares or consolidate Investor Shares and such transactions shall be carried out based on the applicable NAV per Share on the last Valuation Day before the transaction is effected.

Investors in the Sub-Funds shall participate in the income and capital of the Company in respect of the Investor Shares in the Sub-Funds in which they invest.

All Investor Shares participate equally in the net assets of the Class and Sub-Fund to which they relate and in any dividends and other distributions attributable thereto. Investor Shares may be issued as fractional shares up to two (2) decimal places. Fractional Investor Shares will be consolidated into whole Investor Shares when a Shareholder holds enough fractional Investor Shares to make up a whole Investor Shares. With the exception of voting rights, the holders of fractional Investor Shares carry the same rights as integral shares of the same Class and exercisable in proportion to the fraction held.

Voting Rights

Subject to any rights or restrictions for the time being attached to any Class or Classes of Investor Shares as may be set out in the Offering Supplement relating to a Sub-Fund, on a show of hands every holder who is present in person or by proxy and entitled to vote, shall have one vote for every voting Investor Share of which he is the holder and on a poll every holder present in person or by proxy shall have one vote for every Investor Share of which he is the holder. Holders who hold a fraction of an Investor Share may not exercise any voting rights, whether on a show of hands or on a poll, in respect of such fraction of an Investor Share.

The holders of the Founder Shares shall have the exclusive right to appoint one Director. Any changes to the name of the Company shall be decided exclusively by the holders of the Founder Shares. Other than what is stated above, the holders of the Investor Shares shall have full voting rights in respect of matters requiring the approval of Shareholders.

Alterations to the Company's Share Capital

The Company may increase or reduce the maximum number of Shares which may be issued by the Company by an extra-ordinary resolution (i.e. a resolution notice of which has been given prior to the meeting, and which is approved by 75% of the Shareholders present at the meeting and entitled to vote thereon and at least 51% of all Shareholders who are entitled to vote thereon).

Amendment to Memorandum and Articles of Association

Subject as provided herein, the Memorandum and Articles may be altered or amended only by the passing of an extra-ordinary resolution of the holders of the voting Shares in the Company to such effect.

Further Issues of Investor Shares

The Shares shall be at the disposal of the Board of Directors, and the Company may, by resolution of the Board, at any time decide to offer further Investor Shares by means of the issue of an Offering Supplement to a maximum amount of authorised Investor Shares comprised in the authorised share capital and, without prejudice to any special rights previously conferred on the holders of existing Investor Shares, to allot, issue, grant options over or otherwise dispose of the Investor Shares or any other classes of Investor Shares (including fractions of Investor Shares) with or without preferred, deferred or other special rights or restrictions, whether with regard to dividend, voting or otherwise and to such persons, at such times and on such other terms as the Board shall think proper, but not in a manner to reduce the financial rights of Shareholders without their consent.

The Company may, at any time, issue additional Classes of Investor Shares constituting other Sub-Funds, which may be designated in any currency and with particular investment objectives, policies and restrictions, and the assets of which may be managed utilising different methodologies, investing in different markets with particular opportunities and investment risk characteristics. Such other Class(es) of Investor Shares will be offered by means of an Offering Supplement for the specific Sub-Fund. When making an Initial Offering of Investor Shares in a newly established Sub-Fund the Directors shall establish the Initial Offering Price for such Investor Shares at the time of offer and this shall be stated in the Offering Supplement for the specific Sub- Fund.

The Company may, at any time, also issue additional classes of Investor Shares in an existing Sub-Fund which may be designated in any currency.

Repurchase of Investor Shares

Under the Companies Act, the Company is permitted to repurchase or redeem its Investor Shares without restriction. Repurchased or redeemed Investor Shares shall be treated as cancelled and deemed never to have been issued for the purpose of calculation of the maximum number of Investor Shares which may be issued, and shall be available for reissue by the Company at any time in the future. Redemptions of Investor Shares will be based on the NAV per Share in accordance with the Company's Memorandum and Articles and this Prospectus. Reference should be made to the Section entitled "Purchase, Exchange, Transfer and Redemption of Investor Shares" for further details.

Limiting Changes in Portfolio

On any Dealing Day, a net reduction or increase in the number of Investor Shares in issue of any Sub-Fund would normally result in a reduction or increase, and other adjustments, in the portfolio of assets of that Sub-Fund. Dealing and other transactional costs can be incurred as a result of such changes in the portfolio. In order to mitigate this effect, the Company may arrange or procure, without obligation, that one or more entities will be given the opportunity to match, wholly or partially, with a subscription for Investor Shares, any expected net cash outflow from the redemption or repurchase of Investor Shares requested by other investors, and conversely with a request for redemption of shares, any expected net cash inflow from subscription for Investor Shares by other investors. The entities concerned may be entitled to charge a fee for their service; see the relevant Offering Supplement for further details. Such matching transactions will invariably be carried on a Dealing Day and at the relevant NAV per Share.

Closure of a Sub-Fund

Apart from cases where the assets of a Sub-Fund are not sufficient to meet the liabilities in respect of such Sub-Fund, in which case the rules on insolvency will apply to the Sub-Fund in question, Sub-Funds of the Company may be closed from time to time and their licence surrendered to MFSA. In cases where there are no outstanding Investor Shares in a Sub-Fund, as a result of redemptions or exchanges of Investor Shares with Investor Shares in another Sub-Fund, the Directors may resolve to close the Sub-Fund in question and surrender its licence to the MFSA. Where there are outstanding Investor Shares in a Sub-Fund, then the consent in writing of 75% of the Shareholders in that Sub-Fund will be required in terms of the Memorandum and Articles unless the Directors are exercising their powers thereunder relating to mandatory redemption of all Investor Shares in that Sub-Fund.

The MFSA must consent to the closure of a Sub-Fund and to the surrender of its Licence.

Liquidation

The Company and the Sub-Funds have been incorporated for an indefinite period, unless otherwise provided in the Offering Supplement relating to a Sub-Fund and unless closed or liquidated as hereunder described.

Liquidation of a Sub-Fund

Apart from the rules applicable to the closure of a Sub-Fund which are outlined in the Memorandum and Articles and in this Prospectus (see the Part entitled "Closure of a Sub-Fund" above), a Sub-Fund may be dissolved and wound up either voluntarily or under supervision or by the court. Upon the winding up or dissolution (whether the liquidation is voluntary or by the Court) of any Sub-Fund, the assets of such Sub-Fund available for distribution (after satisfaction of creditors' claims) amongst the Shareholders of such Sub-Fund shall be distributed to the Shareholders of such Sub-Fund pro rata to their respective shareholding. Amounts which have not been claimed by Shareholders at the close of

the liquidation of any Sub-Fund will be deposited in an account in the Shareholder's name with a trustee selected by the liquidator. Any such amount not claimed within a period of seven years will be donated to a Maltese enrolled voluntary organisation selected at the discretion of the trustee.

Liquidation of the Company

Subject to all Sub-Funds in the Company being closed, the Company may be dissolved and wound up either voluntarily or under supervision or by a competent Court. The Company may be placed in voluntary liquidation at any time by a resolution adopted by the holders of Shares holding voting rights in the same manner as that required for amending the Memorandum and Articles. Any voluntary liquidation of the Company shall be carried out pursuant to applicable Maltese laws and the Memorandum and Articles. Amounts which have not been claimed by Shareholders at the close of the liquidation will be deposited in an account in the Shareholder's name with a trustee selected by the liquidator. Any such amount not claimed within a period of seven years will be donated to a Maltese enrolled voluntary organisation selected at the discretion of the trustee. Any proceedings in relation to the Company shall respect the legal status of each Sub-Fund as a patrimony separate from the assets and liabilities of each other Sub-Fund and proceedings under the Companies Act shall apply mutatis mutandis to each Sub-Fund as though it were a distinct legal entity and with such modifications as are necessary to accommodate the fact that a Sub-Fund is not a company. Any proceedings in relation to any one Sub-Fund shall not have any effect on the assets of any other Sub-Fund or of the Company itself. The term 'proceedings' as used herein refers to any proceedings whatsoever including the proceedings in terms of Title II of Part V and of Part VI of the Companies Act.

Indebtedness

As at the date of this Prospectus, the Company has no loan capital (including term loans) outstanding or created but unissued, and no outstanding mortgages, charges or other borrowings or indebtedness in the nature of borrowing, including bank overdrafts and liabilities under acceptances or acceptance credits, hire purchase or finance lease commitments, guarantees or other material contingent liabilities.

PREVENTION OF MONEY LAUNDERING AND DATA PROTECTION

Anti-Money Laundering

The Investment Manager and the Administrator are contractually bound by the Company to observe their obligations under the Prevention of Money Laundering Act (“PMLA”), which makes provision for the prevention and prohibition of money laundering in Malta. The PMLA establishes the foundations for the legal framework by introducing basic legal definitions, laying down the procedures for the investigation and prosecution of money laundering offences, and establishing the Financial Intelligence Analysis Unit (“FIAU”).

The obligations under the PMLA include the identification of customers, the retention of the relevant identification and transaction documentation and the reporting of transactions suspected of involving money laundering to the FIAU. In this regard, the Administrator has established appropriate internal procedures to fulfil these obligations which it monitors on a regular basis.

The Prevention of Money Laundering and Funding of Terrorism Regulations (the “PML Regulations”), issued in terms of the PMLA, serve to flesh out the systems and procedures to be adopted by subject persons in the course of their business activities. They also provide high level requirements for identification and customer due diligence, internal record keeping, reporting of suspicious transactions, internal and external reporting and employee instruction and training. The PML Regulations require that the identification documents/certificates obtained must be satisfactory and must be verified. The level and type of documentation required to identify a customer and the level of verification required may vary according to the investor’s Anti-Money Laundering (“AML”) risk profile. In this regard, the Regulations, in line with international standards, outline the various levels of due diligence required according to the level of risk posed by a particular customer and/or situation. The Regulations incorporate all applicable EU Directives to date.

The specific requirements include, inter alia, the fundamental requirement to conduct suitable investor due diligence, including the requirement to “know-your-client” (and to verify the identity thereof), which extends, for any “non-individual” investor, to the ultimate beneficial owner(s) of the monies invested. This requirement is principally (though not exclusively) satisfied through documentary evidence, as listed in the “Client Verification Requirements”, which are part of the Subscription Application. It should be noted that the Administrator may request further information, in order to satisfy its regulatory obligations.

The Administrator is also obliged to obtain information on the purpose and intended nature of the business relationship, in order to be in a position to establish the business and the AML risk profile of the investor. The Administrator is also obliged at law to carry out ongoing monitoring in the case of an existing business relationship, which includes the scrutiny of transactions undertaken throughout the course of the relationship in order to ensure that the transactions being undertaken are consistent with the Administrator’s knowledge of the investor and of his business and risk profile, including, where necessary, the source of funds as well as ensuring that the documents, data or information held by the Administrator are kept up-to-date.

The usual documents and information required are listed in the “Client Verification Requirements” and are available from the offices of the Administrator. Completion of the Subscription Application, serves as confirmation that the Subscriber understands and agrees to furnish the requested documents and other information to the Administrator. Where, following receipt of funds by the Depository (in its capacity as Banker) and further to the issuance of Investor Shares, the Administrator is not satisfied with the AML documentation, the money may be held in the account to which it was remitted and the

subscriber will bear all associated risks. The Administrator determines whether, in the light of its AML obligations, it has sufficient documentation in hand to not revoke the issuance of Investor Shares

If any documents requested are not received within a reasonable time following submission of the Subscription Application, the Administrator will send a request to the Shareholder, informing it that these documents are still due. If, within a reasonable time after this reminder, the Administrator still has not received the documents requested, further requests will be sent to the Shareholder. For these further requests there will be a charge imposed on the Shareholder of €100, which will be charged directly against the Shareholder's interest in the Company.

It must also be noted that, in the event that a redemption request is received from a Shareholder who in the opinion of the Administrator has failed to submit all the required AML documents, although the redemption will be acted upon, Redemption Proceeds cannot be remitted to the Shareholder until all documents requested have been received or necessary verifications made. The Redemption Proceeds will be held by the Depository (in its capacity as Banker) and the Shareholder will bear all associated risks. Further, please note that it is a regulatory requirement to report suspicious transactions to the competent authorities, and any relevant data in this regard may need to be transferred to the relevant regulators.

The Company or the Administrator also reserve the right to refuse to return money remitted to the Company prior the issue of Investor Shares, and to make any redemption payment or distribution to a Shareholder, if any of the Directors of the Company or the Administrator suspects or is advised that the payment of any redemption or distribution moneys to such Shareholder might result in a breach or violation of any applicable AML laws or the laws, regulations, and Executive Orders administered by the U.S. Department of Treasury's Office of Foreign Assets Control ("OFAC"), or other laws or regulations by any person in any relevant jurisdiction (collectively, "AML/OFAC obligations").

There is also a requirement to know the source of the funds, such requirement normally limited to knowing the bank and account from which the monies were remitted. A further requirement is that such monies invested may and will only be redeemed to the account of remittance, except as otherwise agreed with the Administrator.

Each Subscriber and Shareholder will be required to make such representations to the Company as the Company, the Investment Manager or the Administrator will require in connection with applicable AML/OFAC obligations, including, without limitation, representations to the Company that such Subscriber and Shareholder is not: (i) an individual or entity named on any available lists of known or suspected terrorists, terrorist organisations or of other sanctioned persons issued by the United States government and the government(s) of any jurisdiction(s) in which the Company is doing business, including the "List of Specially Designated Nationals" and "Blocked Persons" administered by OFAC as such list may be amended from time to time; (ii) an individual or entity otherwise prohibited by the OFAC sanctions programs; or (iii) a current or former senior foreign political figure or politically exposed person, or an immediate family member or close associate of such an individual. Further, such Subscriber or Shareholder must represent to the Company that it is not a prohibited foreign shell bank.

Such Subscriber and Shareholder will also be required to represent to the Company that amounts contributed by it to the Company were not directly or indirectly derived from activities that may contravene U.S. Federal, state or international laws and regulations, including, without limitation, of such subscriber or Shareholder, either by prohibiting additional investments from the subscriber or Shareholder, declining any withdrawal requests from the subscriber or Shareholder, suspending the payment of withdrawal proceeds payable to the subscriber or Shareholder, and/or segregating the

assets in the account in compliance with governmental regulations. The Company may also be required to report such action and to disclose the Subscriber and Shareholder's identity to OFAC or other applicable governmental and regulatory authorities.

Finally as the aforementioned legislation is subject to change, any additional requirements imposed on the Investment Manager, the Company or the Administrator will be reflected in the requirements requested of the Subscriber or Shareholder.

PURCHASE, EXCHANGE AND TRANSFER OF SHARES

General

Each Sub-Fund can be constituted by multiple Classes of Investor Shares. Each Class represents an interest in the Sub-Fund's portfolio, but may have its own characteristics, such as fee structure, Minimum Investment, Minimum Holding, dividend policy or Base Currency.

Purchase of Investor Shares

Investor Shares are normally issued in registered form, meaning that the Shareholder's name is recorded in the Sub-Fund's register of Investor Shares. A written confirmation of this ownership will be sent to each Shareholder.

Investor Shares in issue must be fully paid-up. Investor Shares have no par value and carry no preferential or pre-emptive rights. Unless otherwise provided in the Offering Supplement in respect of a Sub-Fund, each Share, regardless of Class, is (with the exception of votes on the name of the Company and on the Directors appointed by the Founder Shares) entitled to one vote in all matters brought before a general meeting of Shareholders.

Applications to acquire Investor Shares are subject to the restrictions appearing in this Prospectus, the Memorandum and Articles and, in relation to a particular Sub-Fund, the related Offering Supplement.

Subscriptions are valid only when based on the Prospectus and accompanied by the latest annual report, as well as the latest half-yearly report when this has been published after the latest annual report. No person is authorised to give any information about the Company or a Sub-Fund if the same is not contained in this Prospectus or in the documents mentioned in this Prospectus and which the public can consult.

Subscription Procedures

Investor Shares may be purchased during the Initial Offering Period at the Initial Offering Price and subsequently on any Subscription Day at the Offering Price. Investors can purchase Investor Shares by submitting a request in proper form to the Company at the offices of the Administrator.

In order to purchase Investor Shares in the Company, a prospective investor must:

- Complete and sign the Subscription Application;
- Pay the subscription amount by bank transfer; and
- Send the signed and completed Subscription Application, including the applicable supporting documentation, to the Company at the office of the Administrator.

For this purpose, the relative Subscription Application, duly completed, including the applicable supporting documentation, must be received by the Company at the offices of the Administrator and the subscription amount in respect thereof must be received by the Company, within the deadlines stipulated in the relative Offering Supplement as they apply to the purchase of Investor Shares. The issue and subscription of Investor Shares shall be carried out on the first Subscription Day following the day when such conditions are met. However, with regard to Subscription Applications accepted during the Initial Offering Period, the issue of Investor Shares shall be carried out on the first Business Day after the Closing Date.

Each Sub-Fund calculates its NAV per Share on each Valuation Day and the Offering Price will be available from the Administrator and may be published in one or more financial newspapers in such countries where the Sub-Fund may be distributed to the public.

Orders to buy, exchange or transfer Investor Shares that are received and accepted by the Company before the deadline(s) set out in the Offering Supplement relating to a Class of Investor Shares will be processed at the NAV per Share. Orders received after such deadline will be processed on the next but one Subscription Day provided that the Directors may accept, at their sole discretion, a shorter notice.

The Directors may extend or limit the cut off time for accepting orders and will notify Shareholders if and when a new time takes effect either by sending a notice or by advertising in the relevant newspapers.

A copy of the Subscription Application should be retained by the Subscriber for the Subscriber's personal reference and records.

Please note that the Company will issue Investor Shares to successful subscribers, provided receipt of payments by the Depositary (as Banker) within such notice period as may be set out in the Offering Supplement relating to a Sub-Fund.

The Administrator will generally issue written confirmation of issue of shares and subscription to a Shareholder within two (2) Business Days after the applicable Subscription Day or as may be otherwise stated in the Offering Supplement relating to a Sub-Fund.

Eligible Investors

The Administrator shall not be bound to register more than four (4) persons as joint holders of any Shares.

Each investor must represent and warrant to the Company that, amongst other things, he is able to acquire Investor Shares without violating applicable laws. The Company will not knowingly offer or sell Investor Shares to any investor to whom such offer or sale would be unlawful.

Subscribers' Undertakings and Warranties

Subscribers should take notice that by completing and executing the Subscription Application the subscriber is entering into a number of undertakings and giving a number of warranties as specifically set out in the Subscription Application.

Subscriptions in Specie

The Company shall, at its option, be entitled to receive assets from a prospective Shareholder for the issue of Investor Shares in the Company in accordance with the provisions of the Memorandum and Articles and in accordance with applicable law.

The Company shall require its auditors to draw up a valuer's report. Such report shall include:

- a description of each of the assets comprising the consideration;
- the value of each asset and a description of the method of valuation used;
- a confirmation that the value of the consideration is at least equal to the net asset value of the shares to be issued in return for such consideration;

The Company shall only issue Investor Shares in the relevant Sub-Fund once the assets referred to

in the valuer's report have been transferred in favour of the Company to the satisfaction of the Directors and the Depositary.

All valuer reports issued by the auditors of the Company shall be held in Malta at the registered office of the Company.

The costs of any valuation of assets submitted as subscription in specie are to be borne by the relevant Subscriber.

Exchange of Investor Shares

A holder of Investor Shares may exchange all or part of such holding (the "Original Investor Shares") into Investor Shares in another Sub-Fund or in a different Class of Investor Shares of the same Sub-Fund (the "New Investor Shares"), subject to such conditions as may be prescribed herein or in the relevant Offering Supplement/s.

An irrevocable request from a Shareholder to exchange Investor Shares shall be construed as being a request for the repurchase of the stated number of Original Investor Shares (save that the repurchase monies shall not be released to the investor) and a simultaneous request for the proceeds from such repurchase to be applied in the purchase of New Shares as may be indicated. The exchange of Investor Shares shall take place on the same Dealing Day, or as otherwise agreed with the investor, at the relevant Offering Prices.

The number of New Shares to be issued on exchange shall be determined by the Administrator in accordance (or as nearly as may be in accordance) with the following formula:

$$NS = \frac{[(A \times B) - C] \times D}{E}$$

where:

- NS = the number of New Investor Shares which will be issued; and
A = the number of Original Investor Shares to be exchanged; and
B = the Redemption Price of such Original Investor Shares on the relevant Dealing Day;
C = any transaction costs or other deductions which may be applicable; and
D = if applicable, the rate of exchange determined by the Administrator for converting the currency of designation of the Original Investor Shares into the currency of designation of the New Investor Shares; and
E = the Offering Price of the New Investor Shares on the relevant Dealing Day (adjusted for any fees or any commissions payable).

Transfer of Investor Shares

In order to acquire or hold Investor Shares in the Company, investors must satisfy the conditions set out in this Prospectus.

A Shareholder desiring to transfer his Investor Shares must make available to the Registrar the certificate(s), if issued, or other evidence representing the Investor Shares that such Shareholder desires to transfer, together with a written instrument of transfer executed by or on behalf of the proposed transferor setting forth:

- the names and addresses of the proposed transferor and transferee;
- the number of Investor Shares to be transferred;

- the number of the certificates(s) representing such Investor Shares; and
- such other information as the Company may require, including information necessary to satisfy the Company that the proposed transfer complies with applicable laws and appropriate identification documentation is provided as required by the Company and/ or the Administrator to comply with applicable anti-money laundering regimes.

The proposed transferee must, in the above-mentioned instrument of transfer, agree to take such Investor Shares subject to the same conditions and restrictions pursuant to which the Investor Shares were held by the transferor.

The Company's Memorandum and Articles provide that the Directors may, in their absolute discretion, decline to give effect to the proposed transfer of any Investor Share and may withhold approval for any reason.

Furthermore, the Directors or the Administrator may decline to register any transfer of Investor Shares:

- unless the instrument of transfer is deposited at the office of the Administrator accompanied by the certificate of the Investor Shares to which it relates (if any) and such other evidence as the Administrator on behalf of the Company may reasonably require to prove the right of the transferor to make the transfer;
- if the Company has any lien on the Investor Shares being transferred;
- if the registration of transfers has been suspended by the Directors or the Administrator in accordance with the Memorandum and Articles.

If the Directors or the Administrator on behalf of the Company declines to register a transfer, it shall send notice to the transferee of such refusal within 4 weeks. If within 5 weeks of receipt by the Company of an acceptable instrument of transfer the Administrator on behalf of the Company does not deny permission for the transfer, the Company shall be deemed to have approved the transfer, and shall be obliged to register the transfer forthwith.

Minimum Holding Requirements for Registration of Transfers

Should it appear to the Administrator on behalf of the Company that the effect of a transfer will result, after the transfer, in the transferor or the transferee holding less than the Minimum Holding required in this Prospectus, or in the relative Offering Supplement, the Administrator shall immediately inform the transferee that the request for registration of a transfer has been suspended until the request is amended to result in observance of the Minimum Holding of Investor Shares after the transfer of Investor Shares, by both the transferor and transferee.

REDEMPTION OF SHARES

Procedure

Subject to the restrictions appearing in this Prospectus, the Memorandum and Articles, or, in relation to a particular Sub-Fund, the related Offering Supplement, a Shareholder may cause any or all of his Investor Shares to be redeemed by the Company on a Redemption Day at the Redemption Price.

The Redemption Request must be delivered to the Company at the office of the Administrator. Redemption proceeds in the Base Currency of the redeemed Investor Shares will be transferred to a bank account previously specified by the shareholders. The Sub-Funds do not issue cheques for redemption proceeds. Redemptions will be suspended during any period when the calculation of a Sub-Fund's NAV per share is suspended. If an order to sell Investor Shares would bring an account below the required minimum balance, a Sub-Fund may sell all Investor Shares in the account and deliver the proceeds to the Shareholder. The Directors at times may permit Investor Shares to be redeemed through a payment-in-kind of securities done on an equitable basis and in a way consistent with the interest of all shareholders of the relevant Sub-Fund. The redeeming Shareholders bears the costs associated with redemption-in-kind, including cost of a valuation report from the Company's statutory auditors, unless the Company considers that the redemption-in-kind is in its interest.

Redemption Price

The Redemption Price per Share on the relevant Valuation Day will be calculated to two (2) decimal places.

The Redemption Price is the NAV per Share calculated at the close of business on the relevant Valuation Day. The NAV per Share will reflect all accrued expenses, including accrued Investment Management Fees and Performance Fees, if any.

Compulsory Redemption

The Company reserves the right to require a Shareholder to redeem its total shareholding, within 1 Business Day of a notice of intent to do so, at the prevailing Redemption Price on the day that the requested redemption takes place, in the event that it is established that Investor Shares have been acquired by, or on behalf of, a US Person or in the event that the holding of Investor Shares by the Shareholder concerned may result in regulatory, pecuniary, legal, taxation or material administrative disadvantage for the Company or the Shareholders as a whole, or, if on any Valuation Day, the total value of the Investor Shares held by the Shareholder is less than the Minimum Holding for the Company or a Sub-Fund. Such compulsory redemptions will take place at the prevailing Redemption Price on the day that such redemption takes place.

Suspension of Redemption Request

Should it appear to the Administrator that the effect of a Redemption Request will result after the Redemption, in the Shareholder holding in aggregate less than the Minimum Holding, the Administrator shall immediately inform the applicant that the request for redemption has been suspended until the Notice is amended either to result in observance of the Minimum Holding of Investor Shares, after redemption, or to request the redemption of all of the outstanding Investor Shares in the name of the Shareholder.

Suspension of Redemptions

The Company may suspend the calculation of the Net Asset Value of a Sub-Fund and the right of any Shareholder to require redemption of any Investor Share and the issue of Investor Shares during;

- any period when any stock exchange on which a significant proportion of the investments of the Sub-Fund is quoted is closed otherwise than for ordinary holidays or during which dealings thereon are restricted or suspended;
- any period when disposals of investments by the Sub-Fund cannot be effected normally or without seriously prejudicing the interests of Shareholders;
- any period when for any reason, including but not limited to a breakdown in means of communication, the value of a significant part of the assets and liabilities of the Sub-Fund cannot be determined with sufficient accuracy by the deadlines required; or
- any period when the Sub-Fund is unable to repatriate funds for the purpose of making payments on the redemption of Investor Shares or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of Investor Shares cannot, in the opinion of the Directors, be effected at normal rates of exchange.

Notice of any such suspension will be given to all Shareholders in the relevant Sub-Fund, including any Shareholder tendering his Investor Shares for redemption.

Shareholders will be promptly notified upon the termination of such suspension.

Deferral of Redemptions

Unless otherwise stated in the Offering Supplement in respect of a Sub-Fund, if on any Redemption Day a Sub-Fund receives requests to redeem Investor Shares totalling more than 5% of its net assets, the Sub-Fund may defer part or all of these requests until the next Redemption Day, or further, if it believes this action is necessary to protect the general interests of Shareholders. Requests deferred under this policy will be processed ahead of orders received subsequently and at the share price in effect when processing occurs, adjusted for any applicable dealing charges and commissions.

If in exceptional circumstances, and for whatever reason, redemption proceeds cannot be paid within the time frame set in the Offering Supplement relating to a Sub-Fund, for example when the liquidity of the relevant Sub-Fund does not permit, then payment will be made as soon as reasonably practicable thereafter (not exceeding, however, fifteen business days from the relevant Redemption Day) at the NAV per Share calculated on the relevant Valuation Day.

Frequent Trading

Investment in the Sub-Funds is intended for long term purposes only. The Directors will take reasonable steps to seek to prevent excessive and/or short term trading or similar abusive practices. Excessive and/or short term trading into and out of a Sub-Fund can disrupt or impair portfolio investment strategies, are likely to unnecessarily increase expenses and might negatively impact investment returns for all Shareholders, including long term Shareholders who do not generate these expenses. The Directors reserve the right to reject any redemption, purchase or conversion request delivered by any investor or group of investors if the Directors believe that such redemption, purchase or conversion request disrupts or impairs the trading activity in the portfolio(s) and accounts(s) of a Sub-Fund.

Investors need to be aware that there are practical restraints in both determining the policy which is appropriate in the interest of long term investors and in applying and enforcing such policy.

The right to convert or exchange Investor Shares is not intended to facilitate excessive and/ or short term trading. The Directors reserve the right to reject any conversion order for any reason without prior notice.

FEES, COMPENSATION AND EXPENSES

Investment Management Fees

Under the terms of the Investment Management Agreement, each Sub-Fund may be bound to pay an Investment Management and possibly a Performance Fee. Please refer to the Offering Supplement in respect of a Sub-Fund for further details in respect of the fees applicable to that Sub-Fund.

The Company may apply different fees to different Sub-Funds and to different Classes of Investor Shares in any Sub-Fund of the Company.

The Investment Manager will also be entitled to recover from the Company all properly incurred and approved out-of pocket expenses.

The Investment Manager will be responsible for the fees of any Investment Advisor as well as any other delegate engaged by the Investment Manager, unless otherwise agreed with the Company.

Remuneration

The Investment Manager has adopted a remuneration policy which is consistent with and promotes sound and effective risk management. The remuneration policy includes a description as to how the remuneration and the benefits are calculated, and identifies those individuals responsible for awarding remuneration and benefits. It does not encourage risk-taking which is inconsistent with the risk profiles or offering documents of the sub-funds, and does not impair compliance with the Manager's duty to act in the best interest of Investors.

The Remuneration Policy applies to those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profile of the Company or any of the Sub-Funds.

Details of the up-to-date remuneration policy of the Investment Manager is available on www.abalone.com.mt and paper copies will be made available to investors free of charge upon request.

Charges and Expenses on target CISs

When the Company, on behalf of a Sub-Fund, invests in the units of other CISs managed, directly or by delegation, by the Investment Manager or by any other company with which the Investment Manager is linked by common management or control, or by a substantial direct or indirect holding, the Investment Manager or other company shall not charge subscription, repurchase fees or management fees on account of the investment by the Company on behalf of the Sub-Fund in the units of such other CISs in order to avoid duplication of fees.

If the Company, on behalf of a Sub-Fund, invests a substantial proportion of its net assets in other CISs, the maximum level of management fees that may be charged to the Sub-Fund by such CISs, will be set out in the relevant Offering Supplement. Details of such fees will also be contained in the Company's annual report. Furthermore, where a commission is received by the Investment Manager by virtue of an investment in the units of another CIS behalf of a Sub-Fund, that commission shall be paid into the property of the relevant Sub-Fund.

Third Party Compensation

The Investment Manager reserves the right to pay or waive at its sole discretion any part of its

compensation to persons who may or may not be associated with the Investment Manager, or with whom it may contract, for services rendered to the Investment Manager or any Sub-Fund.

Administrator's Fees

TAXATION

It is the responsibility of prospective shareholders to inform themselves as to any taxation or exchange control legislation affecting them personally. The following summary should not be considered legal or professional tax advice.

General

Prospective investors and Subscribers are urged to seek professional advice as regards both Maltese and any foreign tax legislation applicable to the acquisition, holding and disposal of Investor Shares as well as distributions, if any, made by the Company.

The following is a summary of the anticipated tax treatment applicable to the Company and to its Shareholders in Malta. (This information, which does not constitute legal or tax advice, refers only to Shareholders who do not deal in securities in the course of their normal trading activity).

The information below is based on tax law and practice applicable at the date of this Offering Memorandum. Shareholders of the Company are reminded that tax law and practice and the levels of tax relating to the Company, its Sub-Funds and the Shareholders, may change from time to time.

The Company

The tax regime for collective investment schemes is based on the classification of funds into “prescribed funds” or “non-prescribed funds” in terms of the conditions set out in the Collective Investment Schemes (Investment Income) Regulations, 2001 (the “Investment Income Regulations”). In general, a “prescribed fund” is defined as a resident fund which has declared that the value of its assets situated in Malta amount to at least eighty-five percent (85%) of the value of the total assets of the fund.

The Sub-Funds are classified as “prescribed” or “non-prescribed” funds in terms of the Investment Income Regulations. Unless otherwise specified in the Offering Supplement relating to a Sub-Fund, the Sub-Funds shall be classified as “non-prescribed” funds and a declaration to such effect will, where required, be made in accordance with the Investment Income Regulations to achieve such classification.

In respect of Sub-Funds which are classified as “non-prescribed funds”, a tax exemption at the Sub-Fund level applies on all the income/capital gains (except for income from immovable property situated in Malta, if any). Sub-Funds which are classified as “prescribed funds” are subject to tax on certain local interest income and on income from immovable property situated in Malta.

In respect of both “prescribed funds” and “non-prescribed funds”, capital gains, dividends, interest and any other income from foreign securities held by the Company may be subject to tax imposed by the country of origin concerned and such taxes may not be recoverable by the Company or its Shareholders.

The Shareholders

Non-Prescribed Funds

Capital gains realised on transfers or redemptions by non-Malta residents (covered by the relevant exemption) of Investor Shares in “non-prescribed funds”, are exempt from tax in Malta.

Capital gains realised by Malta resident Shareholders on the transfer, redemption, liquidation, or

cancellation of shares in “non-prescribed funds” may be subject to a 15% final withholding tax and the obligation to deduct such tax at source lies on the Company. However the resident shareholder has the option to request the Company not to effect the deduction of the said 15% withholding tax in which case the investor would be required to declare the gains in his personal income tax return and will be subject to tax at the normal rates.

Switching or exchanging of units from a “non-prescribed fund” to another sub-fund (whether prescribed or non-prescribed) of the same umbrella scheme constitutes a taxable transfer for income tax purposes. However no tax is chargeable at the point of the switch. When switched shares are eventually disposed of, the calculation of the taxable gains will take into account any chargeable gains or allowable losses arising from all intermediate switches as well as from the final transfer.

Capital gains realised on direct transfers (if any) to third parties of shares in non-prescribed funds must be declared by the transferor in his tax return and tax is charged thereon at normal rates, so however that on an eventual redemption, the gain on redemption is calculated without reference to the direct intermediate transfer.

In respect of the “non-prescribed funds” that distribute income, distributions of dividends from the Company’s distributable profits to Malta resident Shareholders, whether these are reinvested or otherwise may be subject to a 15% final withholding tax and the obligation to deduct such tax at source lies on the Company. Distributions of dividends by “non prescribed funds” to non-Malta residents (covered by the relevant exemption), are exempt from tax in Malta.

Duty on Documents and Transfers

Redemptions of Investors Shares by the Company and transfers of Investor Shares to third parties are exempt from duty on documents and transfers in Malta, as the Company is a licensed collective investment scheme.

PROSPECTIVE SHAREHOLDERS SHOULD CONSULT THEIR OWN PROFESSIONAL TAX ADVISOR REGARDING THE TAX CONSEQUENCES OF AN INVESTMENT IN THE SHARES OF THE COMPANY TO THEM INDIVIDUALLY. TAX CONSEQUENCES MAY VARY DEPENDING UPON THE PARTICULAR STATUS OF AN INVESTOR. THE TAX AND OTHER MATTERS DESCRIBED IN THIS OFFERING MEMORANDUM DO NOT CONSTITUTE, AND SHOULD NOT BE CONSIDERED AS, LEGAL OR TAX ADVICE TO INVESTORS.

INDEMNITIES

The Company has agreed that with respect to any actions in which any of its Officers, Directors, employees and agents is a party, the Company shall indemnify and hold harmless such person against any loss, claim, damage, charge, liability or expense (including reasonable attorneys' and accountants' fees), judgements and amounts paid in settlement, provided such actions did not involve fraud, negligence or wilful default. Expenses may be paid by the Company in advance of the final disposition of such action if the indemnified person agrees to reimburse the Company in the event indemnification is not permitted.

The Company may purchase and maintain insurance in relation to the Directors against any liabilities asserted against them.

In addition, the Company has granted indemnities to the Investment Manager, the Depositary and the Administrator and each of their Directors, Officers, employees and agents in respect of actions brought against them in their respective capacities provided that such actions did not involve wilful misconduct, bad faith, negligence or material breach of their obligations and duties under the relative agreements.

NET ASSET VALUE CALCULATION

Allocation of Assets and Liabilities

The Directors and/ or their appointed delegates shall allocate assets and liabilities amongst such Sub-Funds in the following manner:

- i. the proceeds from the issue of one or more classes of Investor Shares in a Sub-Fund, shall be applied in the books and records of that Sub-Fund, and the assets less the liabilities plus income less expenditure attributable thereto shall be applied to such Sub-Fund subject to the provisions of the Memorandum and Articles;
- ii. where any asset is derived from another asset (whether cash or otherwise), the derived asset shall be applied to the same Sub-Fund as the assets from which it was derived and on each revaluation of an asset the increase or diminution in value shall be applied to the relevant Sub-Fund;
- iii. in the case of any asset which the Directors do not consider as attributable to a particular Sub-Fund, the Directors shall have discretion, in consultation with the Depositary, to determine the basis upon which any such asset shall be allocated between Sub-Funds and the Directors shall have the power at any time, in consultation with the Depositary, to vary such basis provided that consultation with the Depositary shall not be required in any such case where the asset is allocated between all Sub-Funds pro rata to their Net Asset Values at the time when the allocation is made;
- iv. the Directors shall have the discretion, in consultation with the Depositary, to determine the basis upon which any liability (which, without limitation, may include all operating expenses of the Company such as stamp duties, taxes, brokerage or other expenses of acquiring and disposing of investments, the fees and expenses of the auditors and legal advisers, the costs of printing and distributing reports, accounts and any prospectus, publishing prices and any relevant registration fees etc.) shall be allocated between Sub-Funds (including conditions as to the subsequent re-allocation thereof if circumstances so permit) and shall have the power at any time and from time to time to vary such basis, provided that consultation with the Depositary shall not be required in any such case where a liability is allocated between the Sub-Funds pro rata to their Net Asset Values; and
- v. subject to the approval of the Depositary, the Directors may transfer any assets to and from Sub-Funds if, as a result of a creditor proceeding against certain of the assets of the Company or otherwise, a liability would be borne in a different manner from that in which it would have been borne under paragraph above or in any similar circumstances.

Calculation of NAV

The Net Asset Value of each Sub-Fund shall be determined by calculating the net difference between the fair market value of its assets and the fair market value of its liabilities calculated on the basis of the provisions of the information contained in this document and in the relevant Offering Supplements. On any Valuation Day the Directors, the Administrator and/ or their appointed delegates shall calculate the Net Asset Value as follows:

- i. The value of the assets of a Sub-Fund will be based on valuations obtained by the Directors, the Administrator and/ or their appointed delegates. The Directors, the Administrator and/ or their appointed delegates may rely on independent sources, including recognised pricing services, when practicable. When such valuation sources are not available, the Directors, the Administrator and/ or their appointed delegates may rely on valuation agents, appointed by the Company which may include affiliates of the Investment Manager. In such later case, the Directors and/ or their appointed delegates will ensure that the valuation procedure of any affiliates of the Investment Manager is being independently reviewed from time to time.
- ii. All liabilities of a Sub-Fund shall be valued in accordance with the provisions of the Offering Documents.
- iii. Subject to what is stated under the sub-title 'NAV per Share' hereunder, if the value of a Sub-Fund's assets is adjusted after any Valuation Day, the Administrator and the Directors will not be required to revise or recalculate the NAV on the basis of which subscriptions, redemptions or exchange of Shares of that Sub-Fund may have been previously accepted.
- iv. For the purpose of the calculation of the NAV per Share, the value of assets or liabilities denominated in a currency other than the Base Currency of that Investor Share shall be determined by taking into account the rate of exchange prevailing at the time of the determination of the NAV.

Additional conditions relating to the calculation of the NAV of any particular Sub-Fund (including Classes thereof) will, if applicable, be found in the relative Offering Supplement.

The Net Asset Value of the Sub-Fund and the NAV per Share will be published on every Dealing Day on the website of the Administrator.

NAV per Share

Where a Sub-Fund is constituted by one class of Investor Shares, its NAV per Share shall be determined by calculating the NAV divided by the number of Investor Shares outstanding. Where a Sub-Fund is constituted by more than one class of Investor Shares, the NAV per Share (of each class of Shares in that Sub-Fund) shall be determined by calculating the NAV attributable to that Class of Investor Shares divided by the number of Investor Shares outstanding in that Class.

The NAV per Share shall be calculated to two (2) decimal places, and shall be expressed in the Base Currency of the class of the Investor Share concerned.

 - ii. issued by an undertaking any securities of which are dealt in on regulated markets referred to in paragraphs (a), (b) or (c); or
 - iii. issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU law or by an establishment which is subject to and complies with prudential rules considered by the MFSA to be at least as stringent as those laid down by EU law; or
 - iv. issued by other bodies belonging to the categories approved by the MFSA provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent of this paragraph (h) and provided that the issuer is a company whose capital and reserves amount at least to ten million Euro (EUR 10,000,000.-) and which presents and publishes its annual accounts in accordance with Fourth Directive 78/660/EEC, is an entity which, within a group of companies which includes one or several listed companies, is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitization vehicles which benefit from a banking liquidity line.
- 2) However, the Company:
- a) may invest up to ten (10) percent of its net assets in transferable securities and money market instruments other than those referred to in paragraph 1) above;
 - b) may acquire movable and immovable property which is essential for the direct pursuit of its business;
 - c) may not acquire either precious metals or certificates representing them; and
 - d) may hold ancillary liquid assets.

Risk diversification

- 1) In accordance with the principle of risk diversification, the Company will invest no more than five (5) percent of its net assets in transferable securities or money market instruments issued by the same entity. The Company may not invest more than twenty (20) percent of its net assets in deposits made with the same entity.
- 2) The risk exposure to a counterparty of the Company in an OTC derivative transaction may not exceed ten (10) percent of its net assets when the counterparty is a credit institution referred to in paragraph 1)(f) above, or five (5) percent of its net assets in any other case.
- 3) Moreover, the total value of the transferable securities and money market instruments held by the Company in the issuing bodies in each of which it invests more than five (5) percent of its net assets must not exceed forty (40) percent of the value of its net assets. This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.
- 4) Notwithstanding the limits laid down in paragraphs 1) and 2) above, the Company may not combine, when this would lead it to invest more than twenty (20) percent of its net assets in a single entity, several of the following elements:
 - a) investments in transferable securities or money market instruments issued by said entity;

- b) deposits made with said entity; and/or
 - c) exposures arising from OTC derivatives transactions undertaken with said entity.
- 5) The following exceptions can be made:
- a) The aforementioned limit of ten (10) percent can be raised to a maximum of twenty-five (25) percent for certain debt securities if they are issued by credit institution whose registered office is situated in an EU Member State and which is subject, by virtue of law, to particular public supervision for the purpose of protecting the holders of such debt securities. In particular, the amounts resulting from the issue of such debt securities must be invested, pursuant to the law in assets which sufficiently cover, during the whole period of validity of such debt securities, the liabilities arising there from and which are assigned to the preferential repayment of capital and accrued interest in the case of default by the issuer. If the Company invests more than five (5) percent of its net assets in such debt securities as referred to above and issued by the same issuer, the total value of such investments may not exceed eighty (80) percent of the value of the Company's net assets.
 - b) The aforementioned limit of ten (10) percent can be raised to a maximum of thirty-five (35) percent for transferable securities or money market instruments issued or guaranteed by an EU Member State, by its local authorities, by a non EU Member State or by public international bodies of which one or more EU Member States are members.
 - c) The transferable securities and money market instruments referred to in in this paragraph 5) are not included in the calculation of the limit of forty (40) percent laid down in paragraph 3) above.
 - d) The limits stated under paragraphs 1) to 5)(b) above, may not be combined and, accordingly, investments in transferable securities or money market instruments issued by the same entity or in deposits or derivatives instruments made with this entity in accordance with paragraphs 1) to 5)(b) above, may not, in any event, exceed a total of thirty-five (35) percent of the Company's net assets.
 - e) The Company may invest in aggregate up to twenty (20) percent of its net assets in transferable securities and money market instruments with the same group.
 - f) Companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with Directive 83/349/EEC or in accordance with recognized international accounting rules, are regarded as a single entity for the purpose of calculating the limits contained in paragraphs 1) to 5)(e) above.
 - g) Without prejudice to the limits laid down in paragraphs 10 to 12 below, the limits of five (5) and ten (10) percent laid down above are raised to a maximum of twenty (20) percent for investment in equity and or debt securities issued by the same entity when the aim of the investment policy of the Company is to replicate the composition of a certain equity or debt securities index which is recognized by the MFSA, on the following basis:
 - the composition of the index is sufficiently diversified,
 - the index represents an adequate benchmark for the market to which it refers,
 - it is published in an appropriate manner.
- This twenty (20) percent limit is raised to thirty-five (35) percent where that proves to be justified by exceptional market conditions in particular in regulated markets where certain transferable securities or money market instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.
- 6) When a transferable security or money market instrument embeds a derivative, the latter must be taken into account when complying with the requirements of the abovementioned restrictions.
- 7) The Company may further invest up to one hundred (100) percent of its net assets, in accordance with the principle of risk spreading, in transferable securities and money market instruments issued or guaranteed by a EU Member State, its local authorities, a non-EU Member State member of the Organization for Economic Co-Operation and Development or public international bodies of which one or more EU Member State are members, provided that in such event the Company must hold securities from at least six (6) different issues, but securities from any one issue may not account for more than thirty (30) percent of the total amount.

- 8) The Company has six (6) months from its date of authorization to achieve compliance with Articles 43 to 46 of the UCI Law.
- 9)
 - a) The Company may acquire shares or units of UCITS and/or other UCIs referred to under Article 41(1)(e) of the UCI Law, provided that no more than twenty (20) percent of its net assets are invested in a single UCITS or other UCI.
 - b) For the purposes of applying this investment limit, each sub-fund of a UCI with multiple sub-funds, within the meaning of Article 181 of the UCI Law, shall be considered as a separate entity, provided that the principle of segregation of commitments of the different sub-funds is ensured in relation to third parties.
 - c) Investments made in shares or units of UCI other than UCITS may not exceed, in aggregate, thirty (30) percent of the net assets of the Company.
 - d) When the Company has acquired shares or units of UCITS and/or other UCIs, the assets of the respective UCITS or other UCI do not have to be combined in the view of the limits laid down in paragraphs 1) to 5)(f) above.
 - e) When the Company invests in the shares or units of other UCITS and/or other UCIs that are managed, directly or by delegation, by the same management company or by any other company to which the management company is linked by common management or control or by a substantial direct or indirect holding, that management company or other company may not charge any management fee nor any subscription or redemption fees on account of the UCITS' investment in the units of other UCITS and/or other UCI.
- 10) The Company will not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing entity.
- 11) The Company may not acquire more than:
 - a) ten (10) percent of non-voting shares of the same issuer;
 - b) ten (10) percent of the debt securities issued by the same issuer;
 - c) twenty-five (25) percent of the units of the same UCITS and/or other UCI; or
 - d) ten (10) percent of the money market instruments of the same issuer.

The limits laid down in the b), c) and d) may be disregarded at the time of acquisition if at that time the gross amount of debt securities or money market instruments, or the net amount of the securities in issue, cannot be calculated.
- 12) The limits of paragraphs 10) and 11) above are waived as to:
 - a) transferable securities and money market instruments issued or guaranteed by an EU Member State or its local authorities;
 - b) transferable securities and money market instruments issued or guaranteed by a non-EU Member State;
 - c) transferable securities and money market instruments issued by public international bodies of which one or more EU Member States are members;
 - d) shares held in the capital of a company incorporated in a non-EU Member State and investing its assets mainly in securities of issuers having their registered office in that Member State, if under the legislation of that Member State such a holding represents the only way in which the Company can invest in the securities of the issuers of that Member State. This derogation only applies if the company has an investment policy complying with paragraphs 1) to 5)(f) above as well as paragraphs 9) to 11) above. If the limits stated in paragraphs 3) to 7) (a) to (f) and 10) above are exceeded, the provisions laid down in Article 49 of the UCI Law shall apply mutatis mutandis;
 - e) shares held by the Company in the capital of one or more subsidiary companies carrying on only the business of management, advice or marketing in the country/state where the subsidiary is located, in regard to the repurchase of units at Shareholders' request exclusively on its or their behalf.
- 13) The Company may not borrow more than ten (10) percent of its total net assets, and then only from financial institutions and on a temporary basis. The Company may, however, acquire foreign currency by means of a back to back loan. The Company will not purchase securities while

borrowings are outstanding in relation to it, except to fulfill prior commitments and/or exercise subscription rights. However, the Company can borrow up to ten (10) percent of its net assets to make possible the acquisition of immovable property essential for the direct pursuit of its business. In this case, these borrowings and those referred to above (temporary borrowings) may not in any case in total exceed fifteen (15) percent of the Company's net assets.

- 14) The Company may not grant credits or act as guarantor for third parties. This limitation does not prevent the Company to purchase securities that are not fully paid up as further described thereunder. This limitation does not apply to margin payments on option deals and other similar transactions made in conformity with established market practices.
- 15) The Company will not purchase any securities on margin (except that the Company may obtain such short-term credit as may be necessary for the clearance of purchases and sales of securities) or make short sales of securities or maintain a short position. Deposits on other accounts in connection with option, forward or financial futures contracts, are, however, permitted within the limits provided for here below.

The Board of Directors is authorized to introduce further investment restrictions at any time in the interests of the Shareholders provided these are necessary to ensure compliance with the laws and regulations of those countries in which the Company's shares are offered and sold. In this event this Prospectus will be updated.

- 16) If any of the above limitations are exceeded for reasons beyond the control of the Company or as a result of the exercise of subscription rights attaching to transferable securities or money market instruments, the Company must adopt, as a priority objective, sales transactions for the remedying of that situation, taking due account of the interests of its Shareholders.
- 17) The Company via the Management Company employs a risk-management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the portfolios of the Company. The Management Company employs a process allowing for accurate and independent assessment of the value of the OTC derivatives.

Information relating to the quantitative limits that apply in the risk management of the Company to the methods chosen to this end and to the recent evolution of the main instrument categories' risks and yields may be provided to investors upon request.

APPENDIX B – NET ASSET VALUE

The Net Asset Value per Share of each Class will be expressed in the Dealing Currency of such Class. In respect of Classes, the Dealing Currency of which differs from the Reference Currency, the Net Asset Value of such other currency denominated Classes will be calculated using the then applicable currency exchange rate (Reference Currency / Dealing Currency).

The Classes are valued daily and the Net Asset Value per Share is dated as of each Valuation Day. If after the calculation of the Net Asset Value, there has been a material change in the quotations on the markets on which a substantial portion of the investments attributable to the Sub-Fund are dealt or quoted, the Company may, in order to safeguard the interests of Shareholders and the Company, cancel the first valuation and carry out a second valuation, for all the Classes concerned, prudently and in good faith.

The Net Asset Value per Share of each Class on any Valuation Day is determined by dividing the value of the total assets of the Company properly allocable to the Class of Shares less the liabilities of the Company properly allocable to such Class by the total number of Shares of such Class outstanding on such Valuation Day.

The Subscription Price and the Redemption Price of the different Classes will differ within the Sub-fund as a result of the differing fee structure, Dealing Currency and/or distribution policy for each Class.

In determining the Net Asset Value per Share, income and expenditure are treated as accruing daily.

The valuation of the Net Asset Value per Share shall be made in the following manner:

The assets of the Company shall be deemed to include:

- i. All cash on hand or on deposit, including any interest accrued thereon;
- ii. All bills and demand notes payable and accounts receivable (including proceeds of securities sold but not delivered);
- iii. All bonds, time notes, certificates of deposit, Shares, stock, debentures, debenture stocks, subscription rights, warrants, options and other securities, financial instruments and similar assets owned or contracted for by the Company (provided that the Company may make adjustments in a manner not inconsistent with paragraph (a) below with regards to fluctuations in the market value of securities caused by trading ex-dividends, ex-rights, or by similar practices);
- iv. All stock dividends, cash dividends and cash distributions receivable by the Company to the extent information thereon is reasonably available to the Company;
- v. All interest accrued on any interest bearing assets owned by the Company except to the extent that the same is included or reflected in the principal amount of such asset;
- vi. The preliminary expenses of the Company, including the cost of issuing and distributing Shares of the Company, insofar as the same have not been written off;
- vii. The liquidating value of all forward contracts and all call or put options the Company has an open position in;
- viii. All other assets of any kind and nature including expenses paid in advance.

The value of such assets shall be determined as follows:

- a) The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends, interest declared or accrued and not yet received, all of which are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof;

- b) Securities listed on a recognized stock exchange or dealt on any other regulated market will be valued at their latest available closing price or mid-price, or, in the event that there should be several such markets, on the basis of their latest available prices on the main market for the relevant security;
- c) in the case of any Investment which is quoted, listed or normally dealt in, on or under the rules of a regulated market but in respect of which, for any reason:
- (i) prices on that regulated market may not be available at any relevant time; or
 - (j) in the opinion of the Board of Directors, the latest available price does not truly reflect the fair market value of the relevant securities; or
- the value thereof based on the said prices or quotations as described in paragraphs (i) and (ii) above does not establish, in the opinion of the Directors, the fair value of any Investment, then the value thereof shall be determined by such professional person as may be appointed by the Directors for such purpose or generally in relation to some or all the Investments of the Company and for such time as may be determined by the Directors. Such professional person must fit the criteria of an independent valuer as defined below;
- The valuer will be independent from the Company, its officials, or any service providers to the Company;
 - The valuer must be of good standing with recognized and relevant qualifications and an authorised member of a recognised professional body in the jurisdiction of the assets;
 - The valuer must be appointed by the Directors, in consultation with the Auditors
- d) Securities not listed or traded on a stock exchange or not dealt on another regulated market will be valued on the basis of the probable sales proceeds determined as described in Appendix C - Valuation) Interest rate swaps will be valued at their market value established by reference to the applicable interest rates curve. Index and financial instruments related swaps will be valued at their market value established by reference to the applicable index or financial instrument.

Any assets held in the Company not expressed in the Reference Currency will be translated into such Reference Currency at the rate of exchange prevailing in a recognized market at 5:00 p.m. in Malta on the relevant Valuation Day.

The liabilities of the Company shall be deemed to include:

- i. All loans, bills and accounts payable;
- ii. All accrued interest on loans of the Company (including accrued fees for commitment for such loans);
- iii. All accrued or payable expenses (including for the avoidance of doubt the Aggregate Fee, i.e. the Management Fee and the Operating and Administrative Fee, and any other third party fees) In determining the amount of such liabilities, the Company shall take into account all expenses payable and all costs incurred by the Company, which shall comprise the Aggregate Fees, the fees payable to the Directors (including all reasonable out-of-pocket expenses), investment advisors (if any), investment managers, sub-investment managers, accountants, Depositary, Management Company, Fund Central Administration, Registrar and Transfer agent, permanent representatives in places of registration, the Distributors, if any, trustees, fiduciaries, correspondent banks and any other agent employed by the Company, fees for legal and auditing services, costs of any proposed listings and of maintaining such listings, promotion, printing, reporting and publishing expenses (including reasonable marketing and advertising

The Company may calculate administrative and other expenses of a regular or recurring nature on an estimated figure for yearly or other periods in advance, and may accrue the same in equal proportions over any such period;

- iv. All known liabilities, present and future, including all matured contractual obligations for payment of money or property, including the amount of any unpaid dividends declared by the Company;
- v. An appropriate provision for future taxes based on capital and income to the relevant Valuation Day, as determined from time to time by the Board of Directors, and other reserves, if any, authorized and approved by the Board of Directors; and
- vi. All other liabilities of the Company of whatsoever kind and nature except liabilities represented by Shares of the Company.

Temporary Suspension of Determination of Net Asset Value per Share and issue or redemption of Shares

The Board of Directors may suspend the determination of the Net Asset Value per Share and the issue or redemption of Shares in any Class in the following circumstances:

- a) During any period when any of the principal stock exchanges or other markets on which a substantial portion of the investments of the Company from time to time is quoted or dealt in is closed otherwise than for ordinary holidays, or during which dealings therein are restricted or suspended, provided that such restriction or suspension affects the valuation of the investments of the Company quoted thereon;
- b) During the existence of any state of affairs which constitutes an emergency in the opinion of the Company as a result of which disposal or valuation of assets owned by the Company attributable would be impracticable;
- c) During any breakdown in the means of communication or computation normally employed in determining the price or value of any of the investments or the current price or value on any stock exchange or other market in respect of the assets;
- d) During any period when the Company is unable to repatriate funds for the purpose of making payments on the redemption of Shares or during which any transfer of funds involved in the realization or acquisition of investments or payments due on redemption of Shares cannot, in the opinion of the Board of Directors, be effected at normal rates of exchange;
- f) Upon the publication of a notice convening a general meeting of Shareholders for the purpose of winding-up the Company; or
- g) In all other cases as provided for in the UCITS Directive.

Any request for subscription or redemption shall be irrevocable except in the event of a suspension of the determination of the Net Asset Value per Share.

Notice of the beginning and of the end of any period of suspension will be published in a medium selected by the Board of Directors, as well as in the official publications specified for the respective countries in which Company Shares are sold. The Maltese regulatory authority, and the relevant authorities of any Member States of the European Union in which Shares of the Company are marketed, will be informed of any such suspension. Notice will likewise be given to any subscriber or Shareholder, as the case may be, applying for subscription or redemption of Shares.

Publication of Net Asset Value per Share

The Net Asset Value per Share of each Class is made public at the registered office of the Company. The Company may arrange for the publication of this information in leading financial newspapers in the Reference Currency and/or in the Dealing Currency of the Class concerned, as the case may be, and in any other currency at the discretion of the Board of Directors.

The Company cannot accept any responsibility for any error or delay in publication or for non-publication of prices.

APPENDIX C - VALUATION

Quoted Investments

- (B) the value of any Investment quoted, listed or normally dealt in, on or under the rules of an Approved Regulated Market shall be calculated in the following manner:
- (i) by reference to the price appearing to the Directors to be the latest available closing price or (if bid and offered quotations are made) the latest available mid-price on such regulated market; and
 - (ii) if an Investment is quoted, listed or normally dealt in, on or under the rules of more than one regulated market, the Directors may adopt the price or, as the case may be, the mid-price on the regulated market which, in their opinion, provides the principal market for such Investment; and

 - prices on that regulated market may not be available at any relevant time; or
 - in the opinion of the Board of Directors, the latest available price does not truly reflect the fair market value of the relevant securities; or
 - the value thereof based on the said prices or quotations as described in paragraphs (i) and (ii) above does not establish, in the opinion of the Directors, the fair value of any Investment, then the value thereof shall be determined by such professional person as may be appointed by the Directors for such purpose or generally in relation to some or all the Investments of the Company and for such time as may be determined by the Directors. Such professional person must fit the criteria of an independent valuer as defined below:

For this purpose:-
- (i) the initial value of such an Investment shall be the amount expended by the Sub-Fund in the acquisition thereof (including in each case the amount of the stamp duties, commissions and other expenses incurred in the acquisition thereof and the vesting thereof in the Company); and
 - (ii) the Directors shall at any time cause a valuation to be made of any such Investment at a fair

market value by such competent person as shall be appointed for such purpose by the Directors.

- (E) The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends, interest declared or accrued and not yet received, all of which are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

Other Investments and General

- (F) other Investments shall be valued in such manner and at such time or times as the Directors shall from time to time determine.
- (G) where any Investment has been agreed to be acquired or realised but such acquisition or disposal has not been completed, such Investment shall be included or excluded, as the case may be, and the gross acquisition or net disposal consideration included or excluded as the Directors shall from time to time determine.
- (H) there shall be included in the assets an amount equal to all such costs, charges, fees and expenses as the Directors may have determined to amortise less the amount thereof which has previously been or is then to be written off.

- (K) there shall be added to the Investments the amount of income (if any) available for allocation in respect of the last preceding Accounting Period but in respect of which no allocation has been made.
- (L) any amount of dividend which has been declared by the Company but not paid will continue to be treated as an asset until it is actually paid.

 - (i) The valuer will be independent from the Company, its officials, or any service providers to the Company;
 - (ii) The valuer must be of good standing with recognized and relevant qualifications

and an authorised member of a recognised professional body in the jurisdiction of the assets;

(iii) The valuer must be appointed by the Directors, in consultation with the Auditors

(N) financial derivative instruments shall be valued by a suitably qualified third party which is independent from the counterparty to the OTC financial derivative instrument at an adequate frequency and in such a way that the Company and the Investment Manager will be able to check it.

Deductions

(O) there shall be deducted from the assets the total amount (whether actual or estimated by the Directors) of any other liabilities properly payable including tax (if any) as in the estimate of the Directors is chargeable in respect of the current or previous Accounting Period, outstanding borrowings, and accrued interest on borrowings (if any), but excluding liabilities taken into account in terms of subparagraph (N) below;

(P) where, in consequence of any notice or repurchase request duly given, a reduction of the Sub-Fund by the cancellation of shares has been or is to be effected but payment in respect of such reduction has not been completed, the shares in question shall be deemed not to be in issue and any amount payable in cash or Investments out of the capital of the Sub-Fund in pursuance of such reduction shall be deducted.

11.2 Notwithstanding anything contained in Article 11.2 above, the Directors may, after consultation with the Depositary, adjust the value of any Investment or other property or permit some other method of valuation to be used if they consider that in the circumstances (including without limitation a material volume of subscriptions or requests for repurchase of shares in the Sub-Fund; or the marketability of the Investments or other property; or such other circumstances as the Directors deem appropriate) such adjustment or other method of valuation should be adopted to reflect more fairly the value of such Investment or other property.

11.3 The Directors shall not be under any liability by reason of the fact that a value reasonably believed by them to be the correct value of any Investment may subsequently be found not to be such.

11.4 Without prejudice to their general powers to delegate their functions herein contained, the Investment Manager may delegate any of its functions in relation to the calculation of Net Asset Value to the Administrator, or to any other duly authorised person. In the absence of wilful misconduct or manifest error, every decision taken by the Investment Manager or by the Administrator or any duly authorised person in calculating the Net Asset Value shall be final and binding on the Company and on present, past or future Members.

11.5 The Company, the Investment Manager or the Administrator shall not be responsible for any error in calculating the value of assets, if the Company, the Investment Manager, or the Administrator has acted in good faith when making such calculations, and no adjustments shall be made to the values of any assets unless the valuation error exceeds 0.5% (half a percentage point) of the Net Asset Value in which case it shall be adjusted. The MFSA shall be notified of such event together with information on such remedial action which the Company, the Investment Manager or the Administrator propose to take to ensure that such error does not occur again.
