Competent Authority: This Fund is regulated by Commission de Surveillance du Secteur Financier (CSSF)
Date of this document: 01st January 2024

WHAT IS THIS PRODUCT?

Type

International Equity is a Sub-Fund of Olympian SICAV (the “Fund”). The Fund consists of separate classes of shares constituting segregated sub-funds which are segregated patrimonies. The Fund is incorporated under the laws of Luxembourg, having its registered office at 11-13 Boulevard de la Foire L-1528 Luxembourg, Grand Duchy of Luxembourg and licensed by the LBR under license number B79640.

Objectives and Investment Policy

The investment objective of this Sub-Fund is to achieve capital appreciation.

The Sub-Fund invests in leading companies in products, process and market (especially with pricing power) regardless of geographical location and sector.

The Sub-Fund principally invests in equity instruments – mainly of medium and high capitalisation - denominated in the three main world currencies: U.S. Dollar, EUR and Yen; however, the Sub-Fund may invest in securities denominated in other currencies. The geographical sectors of the investment are principally European Union, North America, Pacific and Emerging Countries.

The investment in equities may involve the combined use of stocks, all eligible ETFs (with no geographical limitations), derivatives and third parties’ UCIs. The Sub-Fund will not invest in leveraged ETFs.

The Sub-Fund may invest occasionally (especially in specific market conditions, in case of lack of opportunities in the equity markets) in bonds and debt instruments including but not limited to government bonds, bonds issued by supranational institutions, bonds and notes issued by local authorities or agencies, mortgage bonds MBS, corporate bonds and other debt instruments with a focus on US, EU, Japan and Emerging Countries. Investments in MBS will in no case exceed 10% of the total net assets of the Sub-Fund.

Benchmark and Strategy

The Sub-Fund reference benchmark is 90% MSCI ACWI in local currencies and 10% Merrill Lynch Euro Currency LIBOR 3-month Constant Maturity. The Sub-Fund is actively managed. The Management Company has full discretion over the composition of the Sub-Fund’s portfolio, subject to the investment objective, policy and restrictions stated in the Fund’s Prospectus.

Dividend policy

The Sub-Fund does not intend to distribute dividends. Any income arising from the Sub-Fund’s investments is reinvested and reflected in the value of your shares. However, the annual general meeting of shareholders may decide to distribute such income.

Term of the Product

The product has been established for an indefinite period of time. You can buy, sell and switch shares in the Sub-Fund by providing instructions within 1 business day prior the Redemption Day as outlined in the prospectus of the Sub-Fund. The Directors may in their exclusive discretion limit the total amount of redemptions effected on any Redemption Day to 10% of the outstanding Investor Shares in the Sub-Fund on that day.

Practical Information

The Sub-Fund’s depositary bank is CACEIS Investor Services Bank S.A. The NAV is calculated on a daily basis and is published on the Management Company’s website. This KID is specific to the Class of the Sub-Fund. However, the Prospectus and the annual, and half-yearly, financial reports are prepared for the entire Fund. These documents are available free of charge, in English, on the Management Company website.

Intended retail investor

The Sub-Fund aims to meet the needs of all types of investors.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage, and you may get back less.

You may not be able to cash in early. You may have to pay significant extra costs to cash in early. You may not be able to sell your shares in the Sub-Fund easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this Sub-Fund compared to other Funds. It shows how likely it is that the Sub-Fund will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the Sub-Fund's capacity to pay you.

Be aware of currency risk. You may receive payments in a different currency to the base currency of the Sub-Fund, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the market risks included in the risk indicator, other risks may affect the Sub-Fund, including counterparty risk, credit risk, liquidity risk, operational risk and investment risk.

For further information on risks please see the "Risk Factors" section of the Prospectus of the Sub-Fund.

This Sub-Fund does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

Minimum: there is no minimum guaranteed return, and you could lose some or all of your investment.

Recommended holding period:		5 years	
Example Investment:		EUR 10,000	
		If you exit after 1 Year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	EUR 4,948	EUR 1,804
	Average return each year	-50.52%	-29.00%
Unfavourable	What you might get back after costs	EUR 6,201	EUR 5,056
	Average return each year	-37.99%	-13.30%
Moderate	What you might get back after costs	EUR 10,083	EUR 12,357
	Average return each year	+0.83%	+3.67%
Favourable	What you might get back after costs	EUR 13,772	EUR 14,672
	Average return each year	+37.72%	+7.97%

This table shows the money you might could get back over the next 5 years, under different scenarios, assuming that you invest EUR 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. Whilst the above estimates reflect an analysis of what may happen to portfolio returns under various scenarios, the product may be affected by several other risk factors and your maximum loss would be that you will lose all your investment. Please refer to the prospectus for a more detailed explanation of risks.

WHAT HAPPENS IF ABALONE ASSET MANAGEMENT LTD IS UNABLE TO PAY OUT?

This Sub-Fund is a sub-fund of Olympian SICAV, which is a Company organised under the laws of Luxembourg as a multi fund investment company with variable share capital (SICAV). The Company consists of separate classes of shares constituting segregated sub-funds which are segregated patrimonies. The assets of the product are segregated from the assets of Abalone Asset Management Ltd and they are deposited with the depositary. A default of Abalone Asset Management Ltd does not have any impact on the value of your investments in the Sub-Fund.

WHAT ARE THE COSTS?

The person advising on or selling you the Sub-Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you invest in the Sub-Fund and how well the Sub-Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Sub-Fund performs as shown in the moderate scenario
- EUR 10,000 per year is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 311	EUR 1,674
Annual cost impact (*)	3.11%	3.35% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.3% before costs and 3.7% after costs.

We may share part of the costs with the person selling you the Sub-Fund to cover the services they provide to you. They will inform you of the amount.

Composition of costs

The table below shows the impact on return per year.

One-off costs upon entry or exit		If you exit after 1 year
Entry Costs	Impact of the costs you pay when entering your investment.	EUR 0
Exit Costs	Impact of the costs incurred when you exit your investment on maturity.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.50% (estimated) of the value of your investment per year. This is an estimate based on actual costs over the last year and takes account of any known future changes.	EUR 150 (estimated)
Transaction costs	0.06% (estimated) of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Sub-Fund. The actual amount will vary depending on how much we buy and sell.	EUR 6 (estimated)
Incidental costs taken under specific conditions		
Performance fee	1.55% (estimated) the actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 155 (estimated)

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 5 years

The Recommended Holding Period (RHP) of this product is 5 years which is the period over which an investment into the product is expected to break-even. Please note that this is not guaranteed. The more your actual holding period differs from the product's Recommended Holding Period, the more your actual risk of losing money will deviate from the product assumptions. If you wish, you can redeem before the RHP at the Net Asset Value of the product. Also, you might have needs and constraints implying a completely different holding period suitable to you. Thus, we recommend you discuss this point with your financial advisor. The investor can redeem their shares on every Redemption Day.

HOW CAN I COMPLAIN?

Any complaint regarding the person advising on or selling the product can be submitted directly to that person or the Management Company. Any complaint regarding the product or this document can be submitted at the following address: Abalone Asset Management Ltd, 179 Marina Street, Skyway Offices, Block C, Office 8, Pieta' (PTA 9042), Malta. Investors shall note that a complaint can be also addressed by e-mail to: complaints@abalone.mt.

OTHER RELEVANT INFORMATION

The information contained in the Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with the investor's bank or advisor.
